## Conquering Space 23, 100-year-Anniversary

by **Josef Kemény** 18/04/2023

Continued from  
*Conquering Space 19, Conversion*

For you, My Good Father.

Today is April 18, 2023. Good Father, it's your 100<sup>th</sup> birthday, Grandma told us that when you were born in the afternoon of April 18, grandpa was in the kitchen with a glass of red wine. When you entered this world and he heard your voice, he stood, cheered, drank of the wine and out of sheer joy said: 'At last a son, an only-begotten son after three daughters! Grandma said she had never ever seen grandpa that happy.

April 18, 1925. My grandpa and father, Lajos and Tibor. September 3, 1956: You, my Good Father and I. Father and son, Tibor and I, Szabolcs (Josef).

Dad, I'm talking to you now and will remind us of some of the days we spent together after you had left Hungary in 1956. But initially I remembered the day when you introduced my mother to my paternal grandfather, and you mentioned her name. Grandpa took a look at her and said 'Are you János's daughter?' We were good friends, met in the tavern every Sunday, talked about everything such as history, science, politics, liberalism, etcetera (mother told me this). After you left Hungary in the winter of 1956, you left a void behind. I came home from school and always asked 'Where is dad, when does he return home'? You never did. I had a nervous breakdown because I was always crying. When you finally got in touch and told us you had come to the Kingdom, it was a disappointment for grandpa. He repeatedly mentioned that you should have remained at home, you will never be free, you will be treated as a foreigner and you will never take root in the Kingdom of Sweden. You know he never accepted you had left us. He passed away in the summer of 1962. His only thought was: "What will happen to us in the future without a father? How can we manage?" I loved grandpa and after his death I felt lonely. An additional grief was the fact that I never met my maternal grandfather. But I met him in a dream. Smiling, he approached me and said: 'Just go ahead, I am with you.' You know that my maternal grandmother, via mother, sent all documents concerning the origins of the family. I have already used the material. Our maternal grandfather is also with us.

You told us about how you had ended up in Sweden from the refugee camp in Linz, Austria. One afternoon, you and your friend were sitting at a table in a large room talking about possible final destinations. Representatives from countries such as, among other countries, the US, Canada, Australia and South Africa were expected. You did not want to leave Europe because of us, neither did your friend. He was married with no children, he could speak French and had previously worked as an engineer on a French ship. You were thinking about Austria and West Germany. It was not long before a man in his forties turned up from the crowd. He was tall, around 185 centimetres. He asked if he could join you, his Hungarian was pretty good. You said yes. He introduced himself and said he was the European director of the CIA. He said there was a problem to consider. He borrowed yours and your friend's passports and said he would soon return. You said to your friend that it did not interest you, but you also said you could take a closer look. Eventually, after the check-up, the CIA boss returned, handed over your passport to you and said: "Tibor, you will remain here..." but he told your friend he was OK. You all stayed at the table for a while, then he went away and said he would soon return. The following day there was a rumour saying the Swedes had arrived, their white coaches were parked outside the entrance. You mentioned there was chaos since the Swedish delegation was not on the list of nations who wished to take care of the Hungarians. Each country had different demands, for example medical status, but nobody knew anything about Swedish attitudes. The head of the delegation started to talk about the Kingdom of Sweden: "Sweden is a monarchy, our King's name is Gustaf Adolf VI. We emphasize freedom, democracy, humanity, freedom of expression," etcetera. He was a skilled orator, he turned to the Hungarians and said: "We will take good care of you who choose the Kingdom of Sweden for your future, you will not need a medical examination if you come to us. We have white coaches waiting for you."

Yes, Father, you mentioned that after this presentation of the Kingdom of Sweden, despite the fact that you did not know much about the country, you chose Sweden. Since you were singles, you almost immediately went by the first coaches to Sweden. There you met Maria, she was also single, not married. Later, her sister's family arrived with other family groups. You told me you initially came to Lidköping, then to Linköping.

In the spring of 1958 you bought a villa via your employer. You moved in with Maria.. She, too, had a job.

Linköping den 18 sept. 1958

*Tibor Molander*

In the autumn of 1958, you and Maria were summoned by an authority, the Child Custody Board. The staff wanted you to find housing for the coming child. Maria was pregnant. It took some time for you to understand what it was all about, you did not master the language. You said that Maria was staying with you, obviously the child would do the same. But still you had to sign a blank document on September 18, 1958 in Linköping. You then returned home, and simultaneously an official completed the document. It was an acknowledgement of paternity and a settlement of maintenance regarding a child who did not even exist yet. Neither you nor Maria received a copy. Nothing more happened in Linköping.

You told me that Maria felt unwell in the afternoon of Christmas Eve. You helped her to hospital where the hospital staff took care of her. You waited for hours, but nothing happened, so you returned home after having given the staff the phone number to neighbour Harry. When you came home Harry and his wife were waiting and you spent Christmas Eve with them. They had a daughter and a son.

It was very cold and there was a lot of snow. Between eleven and twelve the hospital nurse called. She said there were problems, Jewess Maria could give birth at any moment. She must get hold of a doctor and nurse. She was alone and there was chaos on the ward. She wondered if you could come, promptly. Harry answered that you had drunk some wine and were not allowed to drive. And they were too short of time. His tip was a boy.

The next call came at around ten past midnight. The same assistant nurse announced one more problem. The boy was born at exact twelve o'clock and the staff did not know how to establish date of birth: December 24 or 25? You were also told that the delivery was difficult. The hospital ward finally came to a decision: the little boy, Tibor, was born on December 25 1959. According to you, Christmas Eve was very pleasant despite the long wait for calls from the hospital.

You also told me that Maria, after the birth, gave the little boy the name Tibor. January 3, 1959. In **Personakt nr. 1** (Personal file #1) we can find the newly born baby's surname, but not his given name Tibor, it is missing. His gender was male and he had a personal identity number. In other words: Some of his documents of identity were not in the agreement dated January 19, 1959. The agreement did not state who had been born. You said you did not see the agreement before 1975. Anyone can see that the agreement was (and is) not valid, there is no legal relevance.

Little Tibor between 1959 and 1960 in Linköping, where, according to you, you were staying between 1956 and 1960. Several times, Harry's daughter Lisa was baby-sitting little Tibor. In 1960 you moved from Linköping to Stockholm/Farsta. Harry took care of everything concerning the move to Stockholm, just to help.

1964. I was still in Baja, Hungary and in springtime, for various reasons, I asked my paternal grandmother to write to you and ask you to send a letter of invitation as soon as possible. I wanted to come here, to Sweden, to you. Grandma was happy when she received the letter of invitation, but I was even happier. I immediately took my bike to a travel agency where a female employee helped me to fill in the application and said I had to go to my mother's job. I asked my mother to sign an application in the presence of two witnesses. -I asked her about costs, I had to go back to grandma to get money. When I had done everything, I returned to the travel agency and submitted the application with the letter of invitation. I asked her about time, her answer was between 3 and 6 months. "You are only 14 years old, which may be an advantage."

The summer and summer holiday went on as usual. We swam in the Sugóvica, a tributary of the Danube close to my maternal grandfather's house. Many people were always there, among them one of our neighbouring families. The son was a firefighter. We were close to the whole family, a good family. One afternoon the firefighter and I were swimming, we were sitting on the beach. He asked me: 'We've been here for at least an hour, but your thoughts are elsewhere. Are you listening to me?' 'Of course, I do. A month ago I submitted an application to be allowed to visit my father.' He looked at me, stopped laughing and said: 'What has happened to you? Are you crazy? If this is true, you are the biggest idiot in this country! Instead, you should complete your military service. I've never heard about a young man like you wanting to leave this country. Forget about it, you will never leave Hungary.' 'We'll see,' I answered. We never met again. Within three months I received my passport and entry permit. In early December our mother met the firefighter, and he asked her: 'Where is your son, I haven't seen him since last summer?' 'He's with his father i Stockholm.' He looked at her and could hardly move. 'He dramatically went away and changed his life as a 14-year-old youngster. He must be the only one in this country. What a start in life, how will he finish? Mother wrote this in a letter:

'Dad, you know that Maria and little Tibor moved from us in the spring of 1965. In 1966 she married the Danish civil engineer Kristian Jensen and became Mrs. Jensen of Copenhagen. She and Tibor moved in with him at his villa at Ekerö I know that you and Kristian got on well, he visited us several times in Farsta. You were often in touch, personally and via the phone.

Dad, you do remember, don't you, the autumn 1966 when we went to Linköping to visit Harry and his family? They were happy to meet you and little Tibor again. I was just standing there, I watched the situation and saw how much Harry and his family loved you. You talked a lot to Harry and his wife and mentioned that Maria had married Kristian and lived in Ekerö. She could not come. Harry's son, who was two years older than me, was occupied with little Tibor, so Lisa took care of me. I started to speak Swedish to make it possible for us to discuss various topics. I had learnt Finnish and she said that if I ever will meet Finns I will be easy for me to understand them. I agreed with her, I had a Finnish friend, Hannu, when I went to school, we were in the same group. The time we spent with Harry and his family was unique. The happiness, the love, the understanding they showed towards us was exceptional. I will never forget the moment we said goodbye before returning to Farsta. All four of them hugged and kissed little Tibor and started crying. They were outside the house, waving, until they couldn't see us anymore. After some kilometres on the road, little Tibor asked: 'Dad, why did all of them cry when we parted?' You answered you didn't know.

Dad – now, after some 60 years, I understand why they were crying when we left them that evening. They felt that these few hours were the very last time you met.

Pictures from Gotland, 1966.

In 1962 you had a job in Trångsund. The company produced, among other items, cable terminals. You worked at the shopfloor and mastered all engineering equipment. But after about a year you got a new job, an office job as a designer. That is where you met Henri, who became your very best friend in this life. He came from the province of Småland and, if I remember correctly, his earlier life was in Växjö. He worked as a toolmaker but he was also a skilled geographer, historian and photographer. The pictures above come from his camera. Henri was married to Karin, from Karlstad in the province of Värmland. In 1965 and 1966 we spent our holidays together.

Towards the end of 1966 my mother and my sister Emöke came to us as immigrants. You do remember that I took the tube to T-centralen/Centralstationen to meet them, while you remained at home, cooking. At last we were together again after so many difficult years. We really enjoyed the occasion, it was a successful reunion. One day you went to T-centralen where you joined Kristian and little Tibor, they accompanied you to Farsta, where mother got the opportunity to meet little Tibor for the first time. Next year she got a message that her mother had suddenly been taken ill and mother went back to Hungary to take care of her. She returned to her previous job and in that way she could both take care of her mother and work.

You started working for Televerket in Farsta. The state-of-the-art Televerket was at the time a Swedish state authority responsible for telecommunications in Sweden co-operating with Ericsson. Within a short period of time, you had got some real friends with whom you shared offices and work.

Between 1964 and 1970 I went to school and I studied. I started in Farsta and finished at Norra Real, where I graduated in 1970 as a specialist engineer. The education was my life's finest experience so far. The head teacher Elis Broberg in Farsta was superb, I can still see him today, I still can still hear his voice. I will never forget his secretary, the deputy head and his secretary. The deputy head's cousin also worked, together with you, in the same office, at Televerket during my years there. You and Broberg were at the centre of events during these years. Hard times, but they produced results.

Emöke also studied, between 1967 and 1970, at Hermods School of the Arts. She received only top grades in all subjects.

During the years, almost every Saturday, you and Emöke went to T-centralen where you met up with Kristian and little Tibor. He came with you to Farsta. He spent time with us almost every Saturday and Sunday.

You paid maintenance to little Tibor from 1965. In March 1965, the King sealed your paternity issue, i.e. declared it a **Swedish Government's, His Royal Majesty's, Secret**. Kristian repeatedly told you that Maria's economy was fine, she had a job at the same company as Kristian and she did not miss the maintenance. But no change was possible.

Dad, I hope you remember the spring of 1969, when someone rang the doorbell. When you opened the door, you found little Tibor, alone. You were surprised and you asked him if there were problems in Ekerö. He said no. "This morning I was told that my class would visit a Christian church. Since I am not in any way interested in churches, I left the group and came here instead, to visit you. Nobody knows I'm here."

You said: "Look at you! Stop smoking immediately, cut your hair and be serious about your studies! Your mother called me last week and said that the head teacher wishes to talk to me about your bad results and you must do something about that and improve." He had his camera hanging round his neck.

Dad, you know that little Tibor was very interested in space, Universe, galaxies, planets, flying saucers, and extra-terrestrials. When he came to us, he and I almost always talked about space. He knew about Adamski's book, he liked that a lot together with other UFO books.

One day when you returned from work you said that Maria had called again. She said that little Tibor comes home late in the evenings. People call her and tell her that her son is always visible outdoors and starts talking on buses and commuter trains. He says the Saviour has arrived. Maria cannot answer properly, she remains silent, she cannot control him.

After this there was a brief silence, neither little Tibor nor Maria has called. This was in 1970.

In 1970 and 1971 you worked for Televerket in Farsta. Some of your paintings were exhibited there.

The first two paintings in colour/black-and-white, a tv event from 1964, the Nordic countries, girls from Nigeria and portraits of us. Originally there were at least 20 paintings at the exhibition. You played the piano and the guitar.

I exhibit the painting by Emöke as well, at the beginning you helped her a lot with her artwork.

Self-portraits from 1971  
and 1981

Portraits of family and acquaintances. Between 1967 and 1970 Emöke studied art at Hermods School of Art. She received top grades in all subjects.

She was a skilled painter of portraits, here a selection:

**Still lifes**

**An additional skill: still lifes.**

## Graphite drawings

**Additional examples of Emöke's capacity: graphite drawings.**

## Silversmith

## Silversmith

You know her and you know that one of her favourite activities is to design and produce new jewellery: necklaces, bracelets, rings, earrings, and hairgrips. Here are some examples of her designs.

You built a small silversmith workshop for her, where she could produce her silver jewellery in the 1980s.

## Silversmith

Her favourite activities are to produce new jewellery such as necklaces, rings, bracelets, earrings, and hairclips. Above are some samples of her design, models made of paper, 2004.

She is also good at knitting and crocheting.

## Model construction

## Model design

She is also a skilled designer of models. Her ship models from early August 2001 became the start of an extensive design of models towards the cosmic architecture. We designed more than 80 paper models. Dad, when I saw her models of ships, I said to her: 'Your next model will be a house.' That was when my cosmic architecture models started spreading across the globe. (More info at [Science](#), [Aitobiography](#), pp 12-15)

The windmill (above) was her very own creation, also in 2001,

The scales and the lyre above are her latest creations. She has been a constant co-creator.

## Music

1992. At the Virgo studio we recorded a number of Hungarian songs. I built this studio in the summer of 1992.

1985. She composes and performs her own music.

## New and old folk music from Asia

According to several experts, her music comes from Asia thousands of years ago. Briefly, we can say that her music is a reminder of ancient musical culture. Fairly early it became clear that this music was the best connection to Hungarian history. Each piece of music corresponds to a special occasion, and we have created two historical cassettes from the time of the Huns and the Magyars. The lyrics are in Hungarian, written by me.

She started to compose her special music in 1985. There are now around hundreds of pieces of music and it is possible to introduce Swedish lyrics.

My sister Emöke is an excellent composer of ancient music. I first listened to her music, then I placed the music into different periods, connected to various events and created appropriate lyrics. That is how **HUN-MAGYAR MONDA I** and **HUN-MAGYAR MONDA II** were born. Dad, you wanted us to record the lyrics. In 1992 this was done.

She has also composed music to poems written by our paternal grandfather and his brother. The poems are romantic and dedicated to nature.

**Model of Árpád's castle at Etelközben, Asia, 2008 – JK.**

**Note that we are against murder and war!**

Dad, you liked Emökes' music and my lyrics. You sent some recordings to your childhood friend István/Stefan in Melbourne, Australia. He had a friend who was a professor of music, and he was asked to form an opinion on the recordings. He found that her music had its roots in ancient Asia, in a heathen epoch and culture. There were no Christianity in Asia at the time. This professor of music asked some of his friends to listen to and analyse the music, and they all agreed. I tried to market the cassettes both here in Sweden and in Hungary. But I was stopped. I know by whom. In today's Hungary all history originates with King Saint Stephen. The origin is forgotten.

Mixed motifs

Dad, your eldest sister Pannika, 1909 - 1921

Kémény Lajos  
Baja  
1930

Kémény Lajos  
Baja 1930

Dad, here are grandfather's drawings. He was a forest engineer and maybe, at that time, the finest mathematician in Baja. His style was personal. He played the piano and the violine.

Dad, here are your uncle Simon's drawings, among them the crucifixion of Emmanuel. This drawing is still at the St Antonius congregation in Baja. A self-portrait. In our family art is in our blood.

The church in Baja where you and mother were married on October 3, 1948. Drawing by Éber.

Simon's drawing of the crucifixion of Emmanuel can be seen in this church, St Antonius in Baja.

III Béla Gymnasium, Baja, by the artist Éber Sandor, who was one of Simon's best friends, maybe the very best friend. Éber was famous all over Hungary in the 1930s. Both your father and Simon studied at this school, together with Éber. I joined the high school in the autumn of 1964, my last school in Baja, Hungary.

Simon's daughter Helena was the family's phenomenon. She managed a five-year academic education in just two years and the Music Academy in six months. Her instrument was the piano. Krister, too, has music in his blood.

This was a work of art by vitéz Kemény Simon, an open coffin in which was chained a Hungarian map, a symbol for 1,000 years, placed on a cabinet. The exhibition was at III Béla High School around 1936 – 1939. Thousands and thousands of visitors saw this work of art, so did the clergy. You did too, dad and in the 80s you copied the work of Simon, as a memorial.

Dad, you said this: At the beginning of 1971 (Easter), little Tibor called you at your job at Televerket. He said that he would soon be admitted to hospital to have an operation, something about the head. He was very afraid, worried and nervous. He asked you to accompany him and be there at the operation. Unfortunately, you had to say no because of your job, but you comforted him and told him to be brave, not scared. Little Tibor promised you, that as soon as he could leave the hospital, he would get in touch. At the same time, he asked you if it was OK to bring the model of the aircraft, which he and I had almost finished in Farsta, to Ekerö after he had left the hospital. 'Of course you can,' you said. Then he abruptly finished the call, his mother had returned from a nearby shop. She did not know that little Tibor had already handed over the message to you. **See attachment. He never called. Neither did Kristian Jensen. Little Tibor called you 'dad'. You also mentioned that neither little Tibor, Kristian, nor Maria called you after that.**

Fru E [REDACTED] har tagit kontakt med mig. Er underhållsplikt för Tibor upphör, enligt det avtal som gjordes upp 1958, i år då han fyller 17 år. Då pojken går i gymnasium, önskar modern nu, att underhållsbidraget förlängs tills han gått ut skolan d v s våren 1977. Jag vore tacksam om Ni ville kontakta mig så vi får diskutera detta.

*Catharina [Signature]*  
Catharina [REDACTED]

Letter from the Department of Social Services to Tibor Kemény regarding a prolongation of maintenance to Tibor (from the age of 17 and until the end of his High School studies). Tibor would finish his high school studies at the age of 18.

The Social Welfare office wrote this letter to you dated July 2. 1975. The family name was changed from E... to R... a month earlier. Was the officer unaware of this? She writes that Mrs. E... has been in contact with her. Mrs. E... did not live in Sweden, she was Maria's mother and lived in Hungary. So, Dad, this is how your paternity issue began, as you are well aware of.

Dad, you read Catharina's letter and you called her.

You called Catharina and asked what she meant by the 'prolongation of maintenance'. You had hardly met little Tibor during a five-year period, and you said you wished to meet him and talk to him. 'Where is he now?' you asked Catharina. She answered that you are not allowed to meet him, you are only allowed to pay the maintenance. Then she hung up. You, dad, became suspicious, something was not right. You were sure that Maria's brother-in-law was little Tibor's biological father.

The Budapest University of Arts  
The certificate is for you, dad,  
Tibor Kemény, 1943

This is to certify that you studied sculpture.

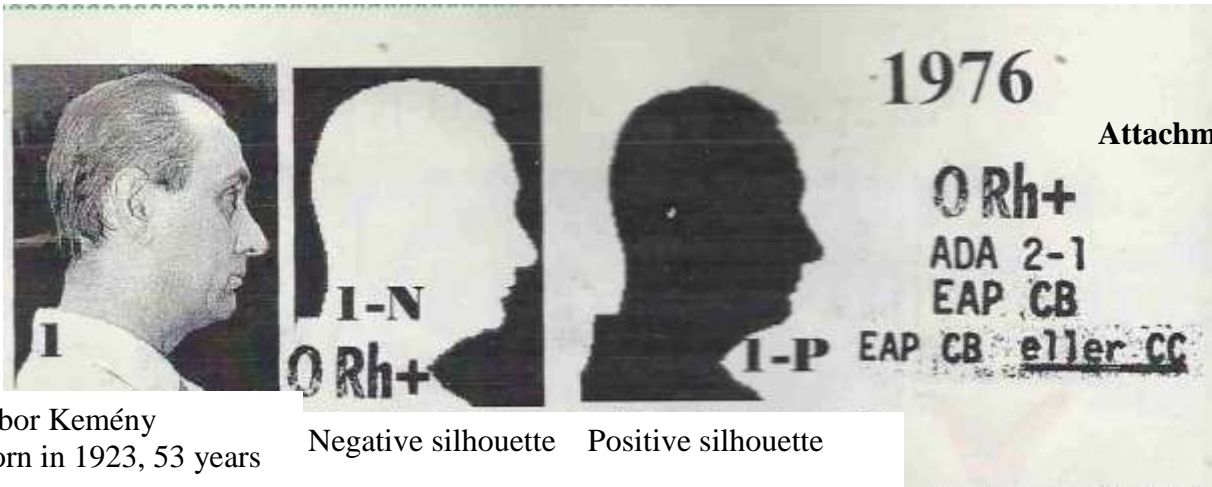

Since you were a jack-of-all-trades, a professional designer, and had studied sculpture at the University of Arts in Budapest in the early 1940s, you established professional anthropological analogies for us and Maria's sister's children. This was towards the end of 1975 and the beginning of 1976.

**Anthropological analogies of the Kemény family were professionally carried out by T. Kemény in 1976, connected to Tibor Kemény's fatherhood.**

Positive silhouette

The starting point for this investigation is Frans's own children, see above. Note that Frans had a third child from his marriage to his wife Emma. It was a daughter born in the 1970s. Her name is Katalin. Emma was Maria's elder sister.

Attachment 15 (2)

If we let the positive and negative silhouettes overlap, the fit is perfect.

This investigation and evaluation of the construction of the cranium is only aimed at us and the children of Maria's brother-in-law. It is only a small part of the total picture, but is enough to understand that little Tibor was your foster son. But Dad, he still made his last phone call to you. Very sad and tragic. (We can compare them to Immanuel's sisters and brother Mary, Marta and Lazarus in the Gospels)

BESÖK HELST EFTER ÖVERENSKOMMELSE

Dad! Your next letter from Catharina arrived on December 11, 1975. Content-wise it looked different. Tibor's name was put in brackets and the maintenance was directed towards Krister, i.e. he who was to be a student in High School. This is the first time Krister appears in connection with your paternity issue.

You called Catharina and asked about this Krister. You did not know anyone with that name, you had nothing to do with him. Christina said that Krister is Tibor, the name has been changed. You mentioned you did not know about this and that you wanted a face-to-face meeting with little Tibor. Catharina said, again, that you were not allowed to meet him, you were only allowed to pay the maintenance. You said you were not little Tibor's father. You said you knew who the father was, and he was free to take over Tibor and the maintenance, if necessary. You said you would hire a lawyer and instruct him/her to nullify the 1958 agreement, which you never saw. Catharina answered that you were Krister's father whatever you were planning to do. 'You have to pay the maintenance and, if needed, we can bribe your future lawyer', she said. Then the call was finished. By this, she started the *avalanche* in this context.

Krister R. [REDACTED]./. Er

Undertecknad har fått i uppdrag att väcka talan mot Er med yrkande om underhållsbidrag för Er son Krister R. [REDACTED] med 400 kronor i månaden räknat från 25.12 1975, då sonen fyllt 17 år, och t o m den 30.6 1977 då han beräknas vara klar med skolan. Socialassistent Catharina [REDACTED] vid Stockholms socialförvaltning, familjerättssektionen har tidigare varit i kontakt med Er för att försöka få till stånd ett avtal, vilket tydligen inte lyckats. Om Ni skulle ha ändrat Er inställning och numera är villig att underteckna avtal om det yrkade underhållsbidraget ber jag Er ta kontakt med mig snarast möjligt.

Med vänlig hälsning

SÖDRA ALLMÄNNA ADVOKATBYRÅN  
[REDACTED]

Letter from the Solicitor's office where they inform Tibor I Kemény that they intend to go to court regarding maintenance to 'your son' Krister R. The sum in question is SEK 400 per month between December 1975 and June 1977. If Kemény has changed his mind and is willing to sign an agreement, he should get in touch with the Solicitor's office immediately.

On December 19, 1975, an additional request appeared from the lawyer. He wanted you to voluntarily pay the maintenance to Krister. He referred to the 1958 agreement which has nothing to do with you, no legal connection at all. Self-evidently, you said no.

In mid-December 1975 Marika bought a house in Ekerö and moved back there with Krister R on December 31, 1975. She became much wealthier without Krister Jensen.

To prove your case you had anthropological analogies in three photo album. As I have already mentioned you worked at Televerket in Farsta. There you met some of your supervisors and told them what had happened to little Tibor. You showed them the analogies and they all agreed you were not little Tibor's father. They also found it strange that he disappeared and that, all of a sudden, an anonymous person with a name you recognised, appeared. One of the supervisors recommended a solicitor called Anders and added: 'He is a competent solicitor, you will win the case.'

On January 14, 1976 we (you and I) visited Anders in his home. When you presented the full case, Anders was very satisfied with the case against Frans, he was little Tibor's biological father. When you had handed the case over to Anders, plus a photo album, you told him that you wanted to nullify the paternity acknowledgement from 1958 and to set up a blood examination which also included Frans. You refused to pay the maintenance to Krister. I still remember Anders's message to you: 'It is difficult to nullify a paternity acknowledgement if it is not completely wrong. In this case it is possible. We will arrange the blood examination which will yield the same results as do the anthropological analogies. I accept the case and, Tibor, we will win.' You received legal aid to be able to take Krister to court. Simultaneously you mentioned that you had never seen the 1958 agreement regarding paternity and maintenance.

Krister [REDACTED] ./. Tibor Kemeny

Återkommande i detta ärende får jag meddela följande.

Kemeny bestrider att utge ytterligare underhållsbidrag till K rister. Kemeny gör gällande, att han ej har förmåga att utge det yrkade underhållsbidraget. Dessutom gör Kemeny gällande, att fru E [REDACTED] ekonomiska situation är mycket god.

Vad gäller faderskapet gör Kemeny gällande, att det under senare år framkommit omständigheter, som ger belägg för att han ej kan vara far till Krister. Sålunda påstår Kemeny, att fru E [REDACTED] vid tiden för barnets avlande även hade intim umgänge med annan man. När Kemeny skrev på avtalet den 18 september 1958 kunde han ingen svenska och hade ej klart för sig vad det var för handling han undertecknade. Någon tolk medverkade ej vid tillfället.

Kemeny har uppdragit åt mig att uttaga stämning å Krister med yrkande att rätten skall förklara 1958 års avtal utan verkan. Innan jag gör detta önskar jag Ditt besked om Du anser förutsättningar finns för att vi försöker klara upp detta utom rätta genom att berörda parter frivilligt låter underkasta sig blodundersökning.

Kemeny har aldrig erhållit 1958 års avtal. Om Du har detta i Din akt värdesätter jag om Du ville tillställa mig en kopia ävensom adressen till Din huvudman.

Jag avvaktar Ditt svar.

Med de bästa hälsningar från tillgivne

Anders [REDACTED]

Letter from Solicitor Anders to Solicitor xxx. Anders mentions that Kemény probably cannot afford to pay the maintenance whereas the woman can. He also asks for help regarding the blood examination and asks xxx if he thinks it is possible to finish this outside the courtroom if the parties voluntarily accept to take part in a blood examination. He finishes the letter by asking for a copy of the 1958 agreement, which Kemény has never seen.

skiljenämnden.

The Legal Aid Commission informs that they have granted Tibor Kemény legal aid (SEK 790) for his case regarding the nullifying of paternity acknowledgement.

On January 19 Anders drew up a letter to the solicitor. He started the letter 'Dear Friend.' Anders's first move in the case was a catastrophe. Instead of suing Krister, which he was supposed to do according to his mandate and legal aid, he arranged a ex-court blood examination and asked the solicitor to send him Krister's address. The actual maintenance did not interest him much, but he asked for a copy of the 1958 agreement and finished: 'Kind regards from your **affectionate** Anders.'

The very same day, January 19, you were granted legal aid regarding 'The Nullifying of Paternity Acknowledgement.' Opposite party Krister R, who had assumed Tibor E's identity.

Advokat Anders [REDACTED]

Broder!

Krister [REDACTED] ./ Tibor Kemeny

Jag har nu via socialassistent Catharina [REDACTED], Stockholms socialförvaltning, familjerättssektionen fått besked att både Marika [REDACTED] och Krister [REDACTED] är villiga att frivilligt medverka till en blodundersökning. En förutsättning härför är dock att herr Kemeny åtar sig att svara för samtliga kostnader för denna undersökning alltså dels själva analyskostnaden dels kostnaden för moder och barn att ta blodprov.

Så snart Du skriftligen bekräftat att herr Kemeny åtar sig dessa kostnader kommer jag att anmoda mina huvudmän att lämna blodprov.

Vad sedan angår underhållsbidraget så kommer jag att inge stämning så fort jag fått mentalsskrivningsbevis på herr Kemeny vilket be-  
ställdes den 12 dennes.

Hälsningar  
[REDACTED]

Anders finally received a positive answer via Catharina concerning the blood examination, both Marika and Krister were willing to participate on one condition: Mr. Kemény must be willing to pay the full costs for blood tests and blood examination. Anders also wants a copy of Kemény's certificate of census registration, This certificate is part of the maintenance issue.

On January 28 Anders received information that both Marika and Krister were willing, on a voluntary basis, to participate in the blood examination. He would submit the summons as soon as has your certificate of census registration on his desk.

My Good Father, the avalanche is around the corner.

Svarande:

Tibor Istvan Kemeny, 23041 [REDACTED]  
[REDACTED]

Ombud:

Advokat Anders [REDACTED]  
Stockholm

Saken:

Underhållsbidrag till barn

I egenskap av ombud för käranden får jag härmed anhänga om stämning  
å svaranden.

Enligt faderskapserkännande den 18.9 1958 är svaranden fader till  
käranden och enligt dom den 29.10 1965 av Svea hovrätt var svaranden  
förpliktad att utge underhållsbidrag för käranden med 125 kronor i  
månaden till dess käranden fyllt 17 år. När käranden fyllde 17 år  
den 24.12 1975 utgick underhållsbidraget efter lagstadgade förhöj-  
ningar med 214 kronor i månaden. Käranden har ännu ej avslutat sin  
grundutbildning. Han kommer att bli klar med sina gymnasiestudier  
förest värtterminen 1977. Käranden har således behov av underhålls-  
bidrag även efter fyllda 17 år och preciserat yrkande om underhålls-  
bidrag har framställts till svaranden senast genom brev den 19.12  
1975. Trots att svaranden torde ha förmåga att även i fortsättnings-  
utge yrkat underhållsbidrag till käranden har avtal därem ej kunnat  
träffas.

Käranden yrkar att tingsrätten förpliktar svaranden att till  
kärandens förmyndare och efter det att käranden fyllt 18 år till  
käranden själv utge underhållsbidrag för käranden med 400 kronor i  
månaden räknat från och med den 25.12 1975 och till och med den 30.6  
1977 att utgå för förfluten tid genast och i övrigt förskottvis  
för kalendermånad ävensom att tingsrätten för tiden intill dess laga  
kraftägande dom i målet föreligger interimistiskt förordnar om skyld-  
ighet för svaranden att utge underhållsbidrag med yrkat belopp så-  
vitt ej avser förfluten tid.

Stockholm den 3 februari 1976

The text above is the summons describing what it is all about: maintenance for a child. Solicitor xxxx describes in detail the case: names, dates, money. It goes back to Linköping 1958 agreement.  
The important issue is whose responsibility it is to pay the prolonged maintenance, SEK 400 a month, between December 25, 1975, up to the end of June, 1977. The maintenance will then cover a period of time which makes it possible for the child (Krister) to finish his High School studies.

PROTOKOLL

Sammanträdesdag

1975-01-07

## § 21.

Till behandling förelåg ett av socialdirektören 1974-12-20 avgivet tjänsteutlåtande angående delegation till tjänsteman. Sociala sammanläggningsnämnden hade 1974-12-13 beslutat att för sin del godkänna likalydande förslag i ärendet. Detta beslut hänförde sig dels till tjänsteutlåtande 1974-11-28 (utsänt ärende nr 49/1974) och dels till tjänsteutlåtande 1974-12-10 (utsänt ärende nr 56/1974).

Sociala centralnämnden beslöt dels att godkänna att fördelningen av beslutanderätten rörande ärenden hänförliga till centralnämndens verksamhetsområde, ska gälla i enlighet med sociala sammanläggningsnämndens beslut 1974-12-13, dels att medge delegation rörande ärenden hänförliga till centralnämndens arbetsområde i enlighet med vad som angivits i de båda ovan nämnda tjänsteutlåtandena, dels ock att rekommendera de sociala distriktsnämnderna, att för sin del godkänna att fördelningen av beslutanderätten rörande ärenden hänförliga till distriktsnämndernas verksamhetsområden skall gälla i enlighet med sociala sammanläggningsnämndens beslut 1974-12-13 samt att medge delegation i enlighet med vad som angivits i de båda ovan nämnda tjänsteutlåtandena.

Enligt protokollet

Extract from minutes taken at a meeting with the District Social Services Department (Sociala Centralnämnden) outlining a future re-shuffling of their organization and at what level the decisions will be made. A key concept seems to be 'delegation of decisions.' This development seems to be triggered by the maintenance issue. See more details below.

*Bernard Bonstedt*

[REDACTED]  
sektionschef

Document certifying that Catharina is employed as Social  
Welfare Officer investigating paternity and maintenance  
issues at the Stockholm DSS.

The speed of it all is remarkable. According to Catharina you were not allowed to meet little Tibor, but Krister voluntarily agreed to a blood examination. Now Anders's and Krister's solicitors stopped the nullifying of the paternity acknowledgement.

On February 3 1976, Krister's solicitor summoned you to appear at Handen District Court (Handens Tingsrätt) regarding maintenance for Krister. In the plaint we still find Marika's old address despite the fact that she and Krister were formally registered at Ekerö from December 30, 1975. Authorizations from Marika R and Catharina were sent to the district court.

The question is how Krister's issue came to the Stockholm DSS in the first place. Maria cannot ask for maintenance for an anonymous adult, there must be another way. Minutes from 1975, see also above.

**Department of Social Services., the DSS. §21** from minutes recorded at a meeting on January 7, 1975. The minutes are written in an old-fashioned bureaucratic language which is fairly hard to understand for an outsider. But behind the bureaucratic language are two **individual** cases. One of them is case #49/1974 with an attached service statement of November 28, 1975. The other one is case #56/1974 with an attached service statement of December 10, 1974. Cases are listed at **§ 21** (confidential). #49/1974 concerns Krister, born in 1948, #56/1974 concerns Tibor E, born in 1958.

It is also clearly stated in the minutes that it is all about legal measures connected to the act of confirmation of paternity of illegitimate children, except for §5. The hearing of the issues above was carried out according to contemporary systems. After some time, Krister's solicitor received these minutes and the authorization to the court regarding Catharina's position. It was also handed over to Handen District Court, **Act Attachment 9**. In his summons to Handen District Court, Krister's solicitor, as proxy II, primarily refers to Stockholm Central Social Board, then to Catharina via DSS Stockholm, the family law section. This organisation was universally prevailing. The minutes clearly state that the issues were introduced by a delegation, and they ended up on the Chief Executive Officer's desk. A delegation should in this context be outsiders, either from the Royal Court/Masons (Rome, the Vatican State or USA/CIA). Krister's summons was totally unknown in Sweden, only the King knew about it and he probably directed the delegation to Stockholm Central Social Board. The minutes were written after the change of names, Tibor to

Broder!

Tibor Kemény ./.. Krister [REDACTED]

Tack för Ditt brev av den 28 januari.

Kemény svarar för undersökningseavgiften hos Statens rättskemiska laboratorium. Jag får be Dig uppmana Krister Rosfjord och modern att beställa tid hos Läkarkliniken, Sofia Hemmet, tel: 22 28 00.

Jag emotser Ditt besked när blodprovstagning skall äga rum förresten då kunna ge undersökande läkaren uppgifter till läkarintyget rörande blodprov.

Jag avväntar Ditt besked.

Med de bästa hälsningar  
Tillgivne

Anders [REDACTED]

Letter from Anders to Krister's solicitor. Kemény confirms that he will cover the costs for the examinations and blood tests and asks Krister to make an appointment with a doctor in Stockholm. He also wants to know when the tests will be carried out.

On February 9, 1976, Anders wrote a letter to Krister's solicitor that he wanted an appointment with a doctor. He wanted to inform the doctor about certain aspects of the doctor's certificate.

At the top: A receipt stating that Tibor Kemény have paid SEK 75 for the blood examination. At the bottom a certificate signed by a nurse, that she has carried out the blood tests.

On February 13 1976, you and I entered the Doctor's Laboratory at Sophiahemmet, where you left blood for testing. On February 26, Marika and Krister did the same for a paternity test. The certificate tells us that Krister used little Tibor's civil registration number. You paid the total sum of SEK 75. At Sophiahemmet it was possible for Anders to talk to the doctor about Krister.

#### SVARANDE

TIBOR Istvan Kemeny, personligt tillstades

Ombud och biträde enligt rättshjälpslagen: advokaten  
Anders [REDACTED] tillstades

#### SAKEN

underhållsbidrag till barn

Anders uppger att ett utomrättsligt förfarande förande  
fastställandet av faderskapet till barnet inletts och  
han ifrågasätter därför om inte tingsrätten kan vilande-  
förklara målet i avbidan på resultatet av påbörjad blod-  
undersökning.

Krister's solicitor vitsordar att ett utomrättsligt förfarande inletts  
men hemställer att målet företas till omedelbar handlägg-  
ning.

Pre- main proceedings. Two options: settle outside the courtroom (extrajudicial, because of the blood examinations) or go ahead with ordinary main proceedings. The extrajudicial option rejected.

Tingsrätten finner ej skäl att förklara målet vilande.

Krister's solicitor

Dolk framställer yrkande i enlighet med stämningsansökan, aktbil 1.

Anders

bestrider käromålet och anför: Behov från barnets sida av fortsatt underhållsbidrag föreligger ej. Faderns ekonomiska situation är ej sådan att den lämnar utrymme för ett utökat underhållsbidrag. Underhållsbidrag bör i allt fall ej utgå för längre tid än till dess att barnet fyllt 18 år. Det interimistiska yrkandet bestrids på den grund att ett utomrättsligt förfarande rörande faderskapet pågår.

Krister's solicitor

Dolk åberopar till grund för käromålet de i stämningsansökan anförda omständigheterna samt tillägger: Krister saknar helt egna inkomster. Han är på grund av klenhet förhindrad att utföra feriearbeten. <sup>Marita</sup> Modern har en sammanlagd inkomst av 5.599 kr/mån brutto, varav 3.499 kr hänför sig till hennes anställning på en ingenjörsfirma och återstående 2.100 kr till en extra anställning som städerska under kvällstid. Efter att tidigare ha bott i en hyreslägenhet i Tensta med en hyra på 877 kr/mån bor modern och barnet sedan i januari 1976 i en villa på Ekerö. Villan inköptes för 270.000 kr varav 15.000 kr betalades kontant. Boendekostnaden uppgår till 2.200 kr/mån. En beräkning av moderns lönemässiga nettosituation ger vid handen att modern och barnet disponerar 1.400 kr efter det att skatt och boendekostnad är betalda. Modern saknar förmögenhet.

Anders

vitsordar uppgifterna om moderns och barnets ekonomiska förhållanden men ifrågasätter om inte barnet uppbär statligt studiebidrag.

Krister's solicitor

vitsordar att barnet uppbär statligt studiebidrag med 150 kr/mån.

Anders

fräskor uppger beträffande faderns ekonomiska förhållanden: Han är anställd på televerket med en inkomst av 3.821 kr/mån. Han bor i ett eget hus. Ränteamorteringar uppgår till 1.166

Lengthy discussions and information regarding the financial status of the parties. The aim is to establish if Tibor can afford to pay the maintenance. It is clear that Marita can. An additional issue is Tibor's 25-year-old daughter who lives at home and has mental problems. She is financially supported by her father, Tibor.

kr/mån. Övriga till boendet förenliga kostnader utgör 270 kr/mån. Han saknar förmögenhet. Han försörjer en hemmararande 25-årig dotter som på grund av nervsjukdom är förhindrad att själv förtjäna sitt uppehälle.

Kristers advokat

vitsordar uppgifterna om faderns ekonomiska förhållanden men ifrågesätter hans underhållsskyldighet mot den myndiga dottern. Han vitsordar att dottern i och för sig är i behov av underhållsbidrag men anser att detta får tillgodeseas genom det allmänna och inte stå i vägen för underhållsskyldigheten mot det <sup>myndiga</sup> omyndiga barnet.

Kemeny uppger att han inte har ansökt om det allmännas hjälp till dotterns underhåll.

På parternas begäran företas målet till omedelbar huvudförhandling varvid parterna hänför sig till vad som förekommit under målets förberedelse.

Parterna slutför sin talan.

Anders

inger kostnadsräkning, aktbil 17.

Kristers advokat

inger kostnadsräkning, aktbil 18.

Förhandlingen, som pågått kl 13.15-14.30 förklaras avslutad med tillkännagivande att dom kommer att meddelas genom att hållas tillgänglig på rättens kansli 24.3.1976 kl 14.00

Som ovan

*Magnus Westerlind*  
Magnus Westerlind

Prot.upps.s.d./

The parties agree to take the issue to instant main proceedings. Sentence will be announced on March 24, 1976 at two o'clock.

Main proceedings at the district court started on March 18, 1976. I accompanied you. When Anders saw this, he said: 'There is no need for you to be here.' 'Of course, he's needed, he's my son,' was your answer. 'My daughter is ill, she has problems with her nerves and remains at home. So, we're both here,' you told him. Marika, Krister and Catharina were not present.

## SVARANDE

TIBOR Istvan Kemeny, 230418-[REDACTED]

Ombud och biträde enligt rättshjälpslagen: advokaten  
Anders [REDACTED] 116 24 STOCKHOLM

Kemeny har på grund av faderskapserkännande och i enlig-  
het med Svea hovrätts dom 29.10.1965 erlagt bidrag till  
Kristers underhåll till dess denne fyllde 17 år 24.12.  
1975.

Efter att 4.2.1976 ha väckt talan mot Kemeny har Krister  
yrkat, att Kemeny förpliktas att till hans förmyndare och  
efter det att han fyllt 18 år till honom själv utge under-  
hållsbidrag för tiden 25.12.1975 till och med 30.6.1977  
med 400 kr per månad att erläggas genast i vad avser för-  
fluten tid och i övrigt förskottsvis per kalendermånad  
ävensom att tingsrätten interimistiskt förordnar om skyl-  
dighet för Kemeny att utge underhållsbidrag med yrkat be-  
lopp såvitt avser ej förfluten tid. Som grund för yrkan-  
det har anförts att Rosfjord bedriver gymnasiestudier till

RÄTTSHJÄLP

och med vårterminen 1977 samt att han under denna tid är i behov av underhållsbidrag och att Kemeny har förmåga att utge sådant. Han har vidare uppgivit att han bor hos modern vars ekonomiska nettosituation är sådan att 1.400 kr kvarstår efter det att skatt och boendekostnad är betalda.

Kemeny har bestritt käromålet under påstående dels att något behov från Kristers sida av fortsatt underhållsbidrag ej föreligger, dels att hans ekonomiska situation ej är sådan att den lämnar utrymme för fortsatt underhållsbidrag. Han har vidare uppgivit att han har en bruttoinkomst av 3.821 kr per månad av vilken efter avdrag för skatt återstår 2.451 kr.

Det interimistiska yrkandet har bestritts av Kemeny på den grund att ett utomrättsligt förfarande genom blodundersökning rörande faderskapet pågår.

#### DOMSKÄL

Tingsrätten finner det böra åligga Kemeny att taga del i kostnaden för Kristers underhåll åtminstone till dess att Krister fyllt 18 år samt att Kemeny, med hänsyn till Kristers pågående gymnasieutbildning, tillbörligen får bidra till underhållet hela den tid, som nu avses med yrkandet.

Parterna har vitsordat varandras uppgifter om ekonomiska förhållanden.

Med hänsyn till vad som sålunda blivit ostridigt finner tingsrätten Kemeny kunna ta del i kostnaden för Kristers underhåll avseende den återstående tiden av gymnasieutbildningen med det fordrade beloppet.

Kemenys invändning, att interimistiskt förordnande angående underhållsbidraget inte rimligen bör komma ifråga eftersom Kemeny kan komma att väcka talan angående faderskapserkännandet, kan enligt tingsrättens mening

The sentence, above and below, states that Kemény must pay SEK 400/month between December 12, 1975, to June 30, 1977. To this must be added legal costs amounting to SEK 3 265 and Krister's legal costs to be paid back to the relevant authorities.

30.3.1976

T 58/76.

Handen

inte utgöra tillräckligt skäl mot ett sådant förordnande.

## DOMSLUT

Kemeny förpliktas att till Krister [REDACTED] utge fyra-  
hundra (400) kr i månaden för tiden 25.12.1975 till och  
med 30.6.1977 att betalas genast i vad avser förfluten  
tid och i övrigt förskottsvis per kalendermånad.

Vad tingsrätten sålunda förordnat skall, såvitt avser  
ej förfluten tid, äga tillämpning även för tiden till  
dess att domen vinner laga kraft.

För det biträde [REDACTED] lämnat [REDACTED] fastställer tings-  
rätten ersättning enligt rättshjälpslagen till ettusen-  
trehundrasextio (1.360) kr, varav 1.175 kr för arbete,  
150 kr för tidsspillan och 35 kr för utlägg.

För det biträde [REDACTED] lämnat Kemeny fastställer tings-  
rätten ersättning enligt rättshjälpslagen till ettusen-  
niohundrafem (1.905) kr, varav 1.755 kr för arbete och  
150 kr för tidsspillan.

Kristers advokat

åligger Kemeny att till statsverket återgälda Krister  
[REDACTED] rättshjälpskostnad.

VIDIMERAS I TJÄNSTEN

During the main proceedings we constantly looked at each other. We listened to Krister's solicitor when he told the court that Krister was frail in health and did not have money enough to finish his High School studies. We immediately understood that solicitor was talking about an anonymous individual, not little Tibor. He was a bit sturdy, not physically frail, and he was not the brightest student.

I noticed that Krister's solicitor was very calm, self-controlled. He acted after having thought, and the judge occasionally dropped off. I suspected that the actual sentence was already formulated before the main proceedings started. Anders was fairly weak and Krister's solicitor attacked him immediately, he did not accept anything of what Anders tried to prove. He did not even approve of the fact that you took care of your sick daughter Emöke, but it was important that you paid maintenance to Krister, a man you had never seen. Do you remember, dad, what Anders said after the proceedings, outside the district court: 'I know that much about this case that I am sure the maintenance issue should never have been included. It is a catastrophe of the worst kind, not in any way thought-through. A maintenance discussion which is finished and restarted during an uncertain situation is madness.' Something had happened to him after the trial. Do you remember that we talked about it all the way home. Anders was right...

Bäste Anders!...

För din kännedom meddelar jag härmed förändring  
i rättegången vid Svea Hovrätt.  
Då Du inte uppfyllt mitt öskemål till fullo, anmodar  
jag Dig avgå, som mitt ombud, och att Du ej längre  
representerar mig inför Hovrätten; ej heller får Du  
lösa ut blodprovsresultatet från Statens rättskemiska  
laboratorium;- och vidare får Du se till att namn och  
adressändring sker, så att det blir jag som skall lösa  
ut blodprovet..... därvid får Du återsända de  
sexhundra kronor, vilka tidigare Du har erhållit ifrån  
mig för blodprovens utlösning från Statens rättskemiska  
laboratorium.-

Tibor Kemény writes a letter to his solicitor Anders where he tells him he does not want him to represent him at the Court of Appeal. He also forbids him to handle the blood examinations and he wants his own costs (SEK 600) covered by Anders.

'With kind regards, Tibor Kemény.'

den 14 maj 1976.

Med de vänligaste hälsningar,

*Tibor Kemény*  
Tibor Kemény

We had constant discussions about how to go on without Anders. You told him to annul the 1958 agreement, but he did not. Remember what Catharina said on the phone: 'If this happens we will bribe your future solicitor.' And, according to the 1975 minutes, see above. It was self-evident that you would always lose the case in courts.

The National Forensic Laboratory, B 291/1976  
Tibor Kemény's paternity issue connected to  
Krister R.

Statens rättskemiska laboratorium för undersökning  
i faderskapsärende.

Till

"Tf. förest. J. [REDACTED]."

Nr: B 291/76.

T. Kemény - K. [REDACTED] + M. [REDACTED].

- a: Härmed meddelas, att ombudet advokaten Anders [REDACTED] blev avskedad den 14/5-1976 av undertecknad.-  
Hänvisning till bilaga 1-3.
- b: Det har redan fattats två beslut: 1 Handens Tingsrätt, den 30. 3. 1976, samt Svea Hovrätt, den 14. 5. 1976, och blodprovundersökningen i faderskapsärende har ännu icke blivit fullbordad, utan att förklaras av vilket skäl detta skett.-
- c: Emellertid jag är säkert på av antropologisk analogi, att jag ej är Krister [REDACTED]'s biologiska fader, därav följer att resultatet ej kan avkunna eller fälla ett positiv utslag..... om resultatet ändå avkunnar eller fäller ett positiv utslag.... då jag ber härmed få förordna en grundlig undersökning, i vilken jag själv önskar medverka också.

På grund av det olagliga faderskapserkännandet, år 1958, blev jag flera gånger dömd gång på gång, att utge underhållsbidrag till Krister [REDACTED]. Jag har fullständig bevis, att hela tiden samt på alla linjer begåtts och fortfarande begå fusk; därav misstänker jag, att även begåtts eller skall begå fusk - försök i Statens rättskemiska laboratorium för undersökning i mitt faderskapsärende.-

Undertecknad ber härmed Tf. förest. J. Hirschfeld att få omedelbart göra en grundlig undersökning i mitt ärende, annars är undertecknad tvungen att överlämna hela det ärendet åt pressen.

[REDACTED], den 28 juni 1976;

Bilaga 4 st.

Med vänlig hälsning,

Tibor Kemény

Letter to the National Forensic Laboratory from Tibor Kemény. He informs the laboratory that he has fired his solicitor Anders. He adds that, despite two decisions by the district and the Court of Appeal, the blood examination is not yet completed. He writes that his own anthropological analogy studies confirm that he is not little Tibor's father and finishes by accusing the laboratory of cheating. He is also about to contact media.

The fact that you wrote to the National Forensic Laboratory was a matter of course. Little Tibor disappeared, so did Kristian Jensen and Maria never called. Fraud, cheating and various crimes were evident. Krister was at the time a mystery regarding your paternity. The Child Custody Board connected Krister to you via the 1975 minutes.

STATENS RÄTTSKEMISKA LABORATORIUM

Blodgruppsserologiska avdelningen

1976-07-10

Dnr. 207/A

Herr Tibor Kemény

140 40 ØSMO

Bäste Herr Kemény,

Med anledning av Eder skrivelse 1976-06-28 får jag härmed bilägga laboratoriet [redacted]s uppgifter om handläggningen av Edert ärende. Jag har personligen tagit del av ärendet och kan icke finna att det skulle ha handlagts felaktigt vid laboratoriet.

Observera utlåtandets formulering innebärande att vi visserligen icke kunnat utesluta Eder som biologisk fader till barnet, men att vi ej heller kunnat bevisa att Ni är barnets biologiska fader.

Själva den språkliga formuleringen "utesluter icke möjligheten, att N.N. skulle kunna vara fader till barnet" vittnar ju tydligt om att laboratoriet på inget sätt med sina undersökningar kunnat binda Eder till faderskapet.

Beträffande Edra allvarliga beskyllningar om fuskförsök vid statens rättskemiska laboratorium i samband med Edert ärende anser jag mig efter 16 års anställning vid laboratoriet ha så pass ingående kännedom om laboratoriets funktioner på samtliga nivåer att jag kan meddela Eder att dylika "fuskförsök" skulle vara praktiskt taget omöjliga även om enskild tjänsteman/män skulle försöka.

Laboratoriets handläggning av ärenden innebär nämligen att så många tjänstemän är inblandade i varje ärende och att så många kontroller utföres att det skulle vara praktiskt taget omöjligt att "fuska" vid laboratoriet utan att detta skulle upptäckas.

Om Ni dock fortfarande skulle tycka Er ha "bevis" för att fuskförsök utförts vid statens rättskemiska laboratorium så föreslås att Ni exempelvis vänder Eder till JO-ämbetet som speciellt har att noga övervaka att myndigheternas utredningar av ärenden blivit korrekt handlagda.

Med vänlig hälsning och förhoppning om att detta svar rörande handläggningen av Edert ärende vid laboratoriet skall kunna vara till hjälp för Eder.

[Signature]

t f föreståndare  
Blodgruppsserologiska avdelningen

Dear Mr. Kemény,

On account of your letter I hereby attach laboratory assistant XXX's report on your issue. I have personally been informed about the issue and cannot see that it has been mismanaged at the laboratory.

Note the wording of the issue. We have not been able to exclude you as the father of the child, but neither has it been possible to prove that you are the father.

The wording "does not exclude the possibility that NN could be the child's father" is a clear statement that the laboratory in no way has been able to connect you to the fatherhood.

I will come back to the rare dispositions later.

I particularly refer to the fact that the child must have inherited the in the European population (Caucasian) rare dispositions EAP-C and ADA2 from the father and Mr. Kemény has these two rare dispositions.

I synnerhet åsyftar jag att barnet måste ha ärvt de i europeisk (kaukasisk) befolkning sällsynta anlagen EAP-C och ADA<sup>2</sup> från sin fader, och hr Kemény har dessa två sällsynta anlag.

I can add that you and I visited the National Forensic Laboratory on July 12, 1976. We talked to the manager and the laboratory assistant and enjoyed a long and profound discussion. Among other things we learned that the laboratory had never met Maria and Krister. Their blood samples were sent to the laboratory directly from the doctor's office.

NOTE the copy of the copy to the National Board of Health and Welfare. The child's B MNSs -- **D-E---**

Here we have **three different** minutes of only one paternity issue.

This is a copy of the original document. The child's B MNSs -- **D-E**---. A very clever forgery. A typewriter with no ribbon was used to change 'minus' to 'plus'.

Dad, again you came upon serious crime, a very clever falsification. You felt inside that even at that laboratory crimes may be committed. That is why you wrote to the National Forensic Laboratory.

We also know that the acting manager never saw the copy, it was taken to your home. There is only one copy. It is used in this summary.

This brief summary is only one small part of the full investigation into the fraud. But the letter from the manager was definitely helpful.

### Copy of original minutes to The National Board of Health and Welfare

Three different documents dealing with one examination result from my father's paternity issue regarding Krister R. The forgery can be found in Krister R's blood results. They did not match factors in Marika R's blood results. A man with blood group ORh+ cannot beget a child with BRh- with an ABRh+ woman. If we study Marika's blood examination, we can see she is not Krister's biological mother. In this case it was all about fatherhood. Motherhood was taken for granted.

Till

Södra allmänna advokatsbyrån....  
advokaten [REDACTED]

Föreläggande.-

Härmed får jag bekräfta, att jag är synnerligen förvånad över, att min kompletterande vadinlaga först tillställdes adv. [REDACTED] av den 21.9.1976.-

Nu undrar jag, att adv. A. [REDACTED] Anders : vid den ifrågavarande tiden har någonting nämnt om kompletterande vadeinlagans innehåll för Eder?...- nämligen han även hade i sin hand nästan samma handlingar och bevismaterial då, såsom den kompletterande vadeinlaga inneha av samma innehåll nu.-

Efter de att Ni har erhållit mina handlingar, yttrar Ni fortfarande Er likaledes om ärendet, såsom Ni yttrade Er i genmäle av den 11.5. 1976?...--

Har Ni någon kännedom beträffande protokollets utlåtande från S.R.L. av den 17.6.1976. över rättsserologisk undersökning i mitt faderskapsärende nr: B. 291/76. att det är förfalskad och polis-anmald med olika personer för olika brott i sambad med detta mål?...-

Härmed får jag be Eder, att snarast möjligt besvara mina frågor.--

[REDACTED] den 25 september 1976;  
Med vänlig hälsning,

Tibor Kemény.

Letter from Tibor Kemény to Södra Allmänna Advokatbyrån (solicitor's office).  
Krister's solicitor.

Kemény asks about his written notice of appeal. It has, he writes, been handled in a way that rises questions about how the whole appeal procedure is organized. He also writes that the procedure contains forgery and is reported to the police.

[Signature] [redacted]

Brief summary: Letter of authorization allowing XXX to handle, look after and represent issues concerning 'allowance to Tibor E' in courts, in contacts with authorities and privately. Signed by Krister R in January, 1977.

Tibor E would have been 18 years old in December 1976. A power of authority, signed by Krister R, was handed to the lawyer who represented him against my father in the case concerning allowance to Krister R. A power of authority to the lawyer, signed by Krister R without his knowledge, a falsification of a document with Krister R's name.

You know, dad, that little Tibor would have been 18 in December, 1976. As Krister assumed his identity, he had to hand in an authorization to his solicitor. We can see that the text was written by the solicitor himself and was signed by Krister. The solicitor then sent the authorization to the Court of Appeal, where Krister won the case, see below.

Herr Tibor Kemény

Ändring av vissa underhållsbidrag.  
Lag den 16. 12. 1966  
(SFS 680/66) §§ 2 och 3.

V

Enligt lag den 16.12. 1966 höjs genom dom eller avtal fastställda underhållsbidrag till bl.a. barn med hänsyn till penningvärdets förändring.

Lagen föreskriver en fortsatt årlig anpassning av underhållsbidragen till förändringar i basbeloppet enligt lagen om allmän försäkring. Detta innebär en höjning av bidragsbeloppet med 7 procent från och med den 1.4. 1977 (föregående höjning ägde rum den 1.4. 1976).

Från och med den 1.4. 1977 är Ni sålunda skyldig erlagga fastställt underhållsbidrag med nedanstående belopp. Där införsel pågår vidtas automatiskt den ändring av införselbeslutet, som beloppshöjningen kan medföra.

Document (certificate) from the DSS containing information on paid maintenance (SEK 1,475) to Krister R during 1976. To be used for the declaration of income.

I know that you refused to pay any kind of allowance to Krister and the Stockholm DSS received the money via the Enforcement Service. They deducted the sum from your salary.

Department of Social Services, Stockholm – May, 1977. Concerning item B XXX.

We have received your letter where you ask for copies of the acts drawn up in connection with the paternity investigation. Fatherhood was established via admission and I suppose Tibor Kemény has a copy of that paternity admission. For now, I attach a copy, unfortunately fairly bad. I am, however not sure which documents you want. A blood test was carried out later with consent of those involved and it concluded that Tibor Kemény could be the girl's father. Maybe you want us to make a compilation of what has been written down? You are welcome to get That. The remaining notations cannot be handed out without consent by those involved. to us. Your are welcome with more specified wishes to Catharina or her temp. None of them is at work this week.

XXX

Social Welfare Officer

Maj 1977

Szabolcs Kemény

Ang. ärende B nr

Vi har mottagit Er skrivelse där Ni begär att för kännedom få erhålla kopior av de handlingar som upprättades i samband med faderskapsutredningen. Faderskapet fastställdes ju genom erkännande och jag förmodar att Tibor Kemény innehar en avskrift av faderskapser ännandet. Sänder emellertid tills vidare en tyvärr ganska dålig kopia. Däremot är jag osäker om vilka handlingar i övrigt som avses. Blodundersökning verkställdes ju senare och denna utvisade inte annat än att Tibor Kemény skulle kunna vara far till flickan. Övriga anteckningar kan inte lämnas ut utan hörande av övriga inblandade. Kanske önskar Ni att vi gör en sammanställning om vad som finns angecknat? - Det går ju bra att återkomma med mera specificerade önskemål till Catharina eller vikarie . Ingen av dem är i tjänst denna vecka.

socialinspektör

Girl

flickan.

The letter 'M' is a symbol of **hybrid**.

Dad, we have now reached May 1977. You asked me to write a letter to the Stockholm DSS and ask them to send over a summary of your paternity investigation connected to the 1958 agreement. She, the officer, answered and wrote, among other things, that the blood examination tells us that you could be the girl's father. **At that time 'hybrid', the third gender, was not known.**

You told her on the phone, that it is all about one single boy, you had nothing to do with the girl. She disconnected the call and went to check the gender of the child. Each time she returned to the phone, she firmly said that, according to her information, there is only a girl. She knew nothing about the handling of the case. 'Girl' is a female gender. In the personal file (49/1974) regarding Krister, who was born in 1948, there is a clear 'M', male gender, as is the information about Tibor E (56/1974), who was born in 1958 according to minutes from January 7, 1975.

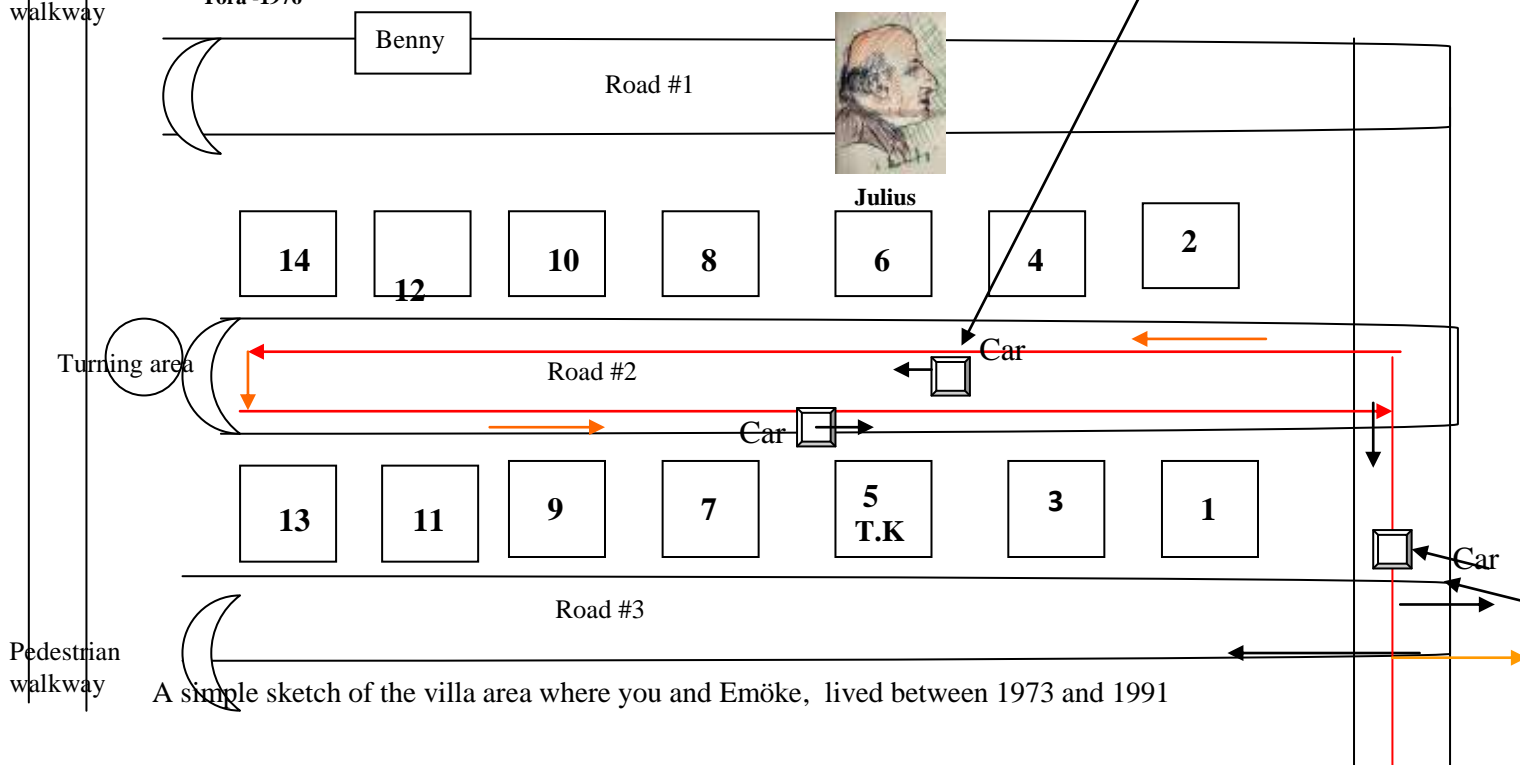

3) Kön	4) Födelselid och nummer
M	år      månad      dag      nr

9) Lyle	
12) Konfirm. m. m.	

At the centre of the outline is Road 2. On one side of the road house are numbered 2 to 14, on the other side 1 to 13. A Jew named Julius, a healthy senior citizen, lived in number **6** and opposite him, in number **5**, lived my father and my sister. Being neighbours, my father and Julius had good relations, they met every day. Julius had some siblings, the youngest brother Benny lived on Road 1. He was an entrepreneur and artist. Julius also had a younger brother, Emil, senior citizen who had worked at the Ministry of Finance in the 1950s. The youngest sibling was a sister called Tora, she worked as a manager of economy in Stockholm. Julius managed a cinema in Stockholm in the 1950s and 60s, he had good media contacts. I knew them all personally. They were all nice, sympathetic, friendly, intellectual and healthy, they lived on kosher food. Every weekend Julius had visitors: either his brother Emil or his sister Tora. In that way my father also learned to know them, they were permanent guests in our house. I spent my weekends with my father in those days and from 1983 I lived there (the drawings of Julius and Emil above are you from 1976, Emöke is behind the portrait of Tora, 1976). Anyway, Julius was a talented, healthy and friendly neighbour. He was never ill in those days. In the spring of 1977 he was

## Krister R

Anyway, Julius was a talented, healthy and good neighbour. He was never ill. In spring 1977 he was on the roof of his house inspecting the tiles. My memory fails me, but it must have been in April or May, mid-week. In the early evening you called me to let me know that Julius was dead, he had had a fatal heart attack on the commuter train. It was impossible to understand. I said to you that Julius had never experienced any heart problems. He did not smoke, he did not drink alcohol, he often exercised. Julius's brother received the news of his death and was very surprised as were his other siblings.

In the summer of 1977, in July, a Saturday afternoon, Maria and Krister R suddenly appeared on road #2. They were in a vintage car belonging to Prince Bertil. Krister was in the driver's seat, he seemed to be 5 – 8 years older than Tibor E. He slowly passed your villa, but his eyes focussed on on Julius's house. It was empty but, as far as I know, not yet for sale. They both had sun glasses. Maria had a head cloth, Krister a blue shirt. The house was obviously interesting.

When you caught sight of them, you immediately said that the person behind the wheel looked like your cousin, Ilona/Helen in Hungary. Then I understood what had happened: little Tibor was murdered and then replaced by this Krister (a son of my cousins) who stole little Tibor's identity. It was Krister's blood which contained the, for European/Caucasian people, rare hereditary dispositions EAP-C and ADA<sub>2</sub>. You said that these dispositions exist i our family. It seems as if this person is a girl according to the letter from the DSS officer. Krister is neither man nor woman, he is a hybrid. 'Now I understand everything', you said. We understood why Maria was not allowed to say anything.

a

Med vänlig hälsning och förhoppning om att detta svar rörande handläggningen av Edert ärende vid laboratoriet skall kunna vara till hjälp för Eder.

With kind regards and a hope that this answer about the handling of your issue at the laboratory will be helpful.

Kemény Tibor

Kemény Ilona/Helen

Krister R - -Stephen/István  
born in 1948

The letter from the deputy manager is really helpful. It proves that Krister is part of our extended family.

Observera utlåtandets formulering innebärande att vi visserligen icke kunnat utesluta Eder som biologisk fader till barnet, men att vi ej heller kunnat bevisa att Ni är barnets biologiska fader.

Note the wording of the issue. We have not been able to exclude you as the father of the child, but neither has it been possible to prove that you are the father.

The wording "does not exclude the possibility that NN could be the child's father" is a clear statement that the laboratory in no way has been able to connect you to the fatherhood.

With kind regards and a hope that this answer about the handling of your issue at the laboratory will be helpful.

**100 % biological proof that Krister R is not identical with  
Tibor E**

September 19, 1978, at 2 p.m.

What was not meant to happen, had happened.

At home, the situation was tense. The atmosphere was hot and tension palpable. We had a feeling that something would happen. You did not accept that your cousins' child, Krister, was your son. You repeatedly said 'Never, never, and again never!' On Tuesday, September 19 at two o'clock in the afternoon, four desperate police officers attacked your house. They wanted to remove you, but you refused to let them in. They had no court order.

You warned the police officer that the breakthrough would end in catastrophe, you had constructed a device which would automatically and immediately set fire to the house. The officers did not listen and entered the house. The fire started like an explosion and the whole villa was suddenly on fire. Then the officers arrested and handcuffed us, as if we were hardened criminals. In the police van we overheard one of the officers talking to a female council employee. She was very nervous and worried. The police officer reported that firefighters were trying to extinguish and that the house was almost gutted except for the bathroom, where we were during the whole operation. We were slightly injured, the officers helped us out via the bathroom window. We clearly heard the council officer say that the house was not a problem, the most important information was that we were alive. She was relieved.

On the police station we were met by DI B Nilsson. He had once received your report to the police about the fake blood examination at the National Forensic Laboratory regarding your paternity conflict regarding Krister R. He turned to you and said: 'Is this how it ended?' 'Evidently', you said.

The police wanted help from a doctor, but father said no, we did not want to meet a doctor. The police officer in charge of the men who had attacked us assumed the doctor's responsibilities. Towards the evening we (my dad and I) were transported to Långbro, to a locked ward. My sister was taken to the Danderyd psychiatric hospital. On the way there we asked who had given ordered the arrest my father. The officers said, almost simultaneously, that the order came *from the top* and they did not know what it was all about. One of the officers mentioned the word (**Scroll**). 'Then we understand', you answered. 'Had they known they would have refused to drive to you. 'By the way, we discussed this on the police station and in the car on our way to Långbro.' I can only add that the officers on the police station were a bit depressed. They all knew you were innocent and that you were right. They were very worried about your paternity issue.

We arrived at Långbro psychiatric hospital, ward #53, a closed ward. The consultant was Ingrid L, the ward doctor Lena B, the nurse Gun. You asked the consultant why we were there. She said, distinctly: 'You set your house on fire, that is why you are here.' 'I really did not set my house on fire, you cannot mean you knew in advance that my house would burn?' My case is a paternity issue, that is why I am here,' you said to her. 'Forget the paternity issue, you are getting ideas into your head, you will spend a long time here, do you understand?' You said to her: 'We will see, you are using the same system that was used by the Communists in Hungary.' The intern and the nurse said nothing, they were looking at each other.

We did not know, that even here, in human Sweden, Communist systems were used. That it was possible, without further ado, to lock someone up in a loony bin, a Communist 'strength' in those days. Even if the staff were friendly, we felt that we were in hell. We were locked up in the ward for eleven days, once in a while we were allowed to talk to my sister Emöke on the phone. We called the police and asked them to visit the house and look for wallets, keys, identity documents, my father's driving license, etc. The police did what we wanted and then took what they found to Långbro.

After eleven days we were allowed outside. Together with a carer we went to the burnt out house and fetched your car. The day after that we returned and found all documents and some valuable undamaged books. They were damaged but they were easy to read. Everything else was destroyed but the most valuable items, all documents, were not damaged. Then we went to Farsta, where I was staying at the time. There you and I sorted the documents and put them into new binders. At the same time you called Henri and asked him to try to find pictures of little Tibor.

**Vacation in Norway 1966.**

We came close to Nurse Gun. She was the first person who read all documents. After her the intern, Lena, also studied them together with Gun. The reaction was completely different after the documents had started 'to talk', proving that you, dad, was right. They asked each other: 'How could Sweden sink so low into the dark?' After about one week, Consultant Ingrid appeared again. When she had read the documents, in her way, she said: 'He lied to me, I was completely duped. You were right, Tibor.' She was angry, stood, and left. She did not mention any names.

### Total turnabout

Consultant Ingrid, Intern Lena and Nurse Gun formed a group and decided together to get in touch with Krister R and ask him to come to Långbro to meet you. Hospital rules allowed such a meeting. The group decided to let Gun handle this. Even you, dad, found the idea rewarding. Gun borrowed two pictures of us to help her carry out her mission.

A month later there were still no result. One morning in early December 1978, Gun came running into the room where we spent our time and shouted: 'Tibor, Tibor, I spoke to Krister on the phone yesterday evening. You were right.' That was how the contacts with Krister began. 'That man Krister does not know who you are, who all of you are he has never heard about you. He repeatedly said that I ought to speak to his mother Maria, she knew everything, but I told him was not interested in her. I want to talk to you, shame on you, your father and his son are in a mental hospital because of you, and you are doing nothing about it. Again, Krister said he knew nothing about what I was talking about, he had no idea. I was now sure I had been talking to little Tibor and I finished the call.'

She told us that it was very difficult to get in touch with Krister. At the beginning she was always met by 'no, no', but when she again and again indicated that Krister was part of your paternity issue, that we were locked up at Långbro mental hospital, and that he was partly to blame for that, she was finally allowed to talk to him.

Gun's conversation with Krister underlined that all legal procedures were in fact illegal, based on lies and forges documents. One example is Krister's signature concerning XXX's authorization. In other words: Everything against you, dad, was fabricated in his name and Krister was not identical with little Tibor.

In mid-March you were released by the Discharge Board. On April 18, 1979, on your birthday, the insurance company presented you with a completely new house. The nightmare started to fade.

You returned to your work at Televerket, Farsta, in 1979. I had recently got a new job at Ahlsell VVS AB in Hammarby and life started to come back. No letters from courts, authorities Child Custody Boards, etc. Everything happened when Ola Ullsten was the Prime Minister of Sweden. Folkpartiet (the Liberal Party) was in charge headed by Ullsten. Thanks, Ola. Those were the days for you and us, a calm period.

In 1979 Maria married again and Krister was not in focus any more.

*Christer Philip*

...to be changed to Christer Philip

Utan avgift

The year is 1981. A change of names takes place, Krister becomes Christer Philip, a superrich American two years older than Krister.

Dad, you have never heard the name Christer Philip connected to your paternity issue. Neither did I know about it. If you are very wealthy and powerful you can end up here as Christer Philip. But he Church and King knew about it.

**1980, my family**

**1986, my family**

Again: our family are together. Mother came to visit us several times during the 70s. She came to see us in 1978, shortly before the attack. I am sure you remember how scared and worried she was.

Jag hemställer att tingsrätten godkänner bouppteckningen så fort som  
===== möjligt. =====

Dad, you know that the worst day of my life was the day you passed away. You left us to loneliness on May 4, 1991. I still cannot get over it. I was used to your way of handling all matters and suddenly everything was up to me.

1992-03-18

Angående bouppteckningsföretningen den 25 mars

Härmed meddelas att jag inte kommer att närvara vid mötet samt att jag inte gör anspråk av min del av dödsboet.

Med vänliga hälsningar.

Christer RXXXX

18/03/1992

**Regarding estate inventory function on March 25**

I hereby state that I will not be present at the meeting and that I will not claim my part of the estate.

Kind regards,

Christer RXXX

Estate inventory proceedings after you started. I tried to accomplish it without Krister, but the authorities refused. It was a very troublesome period of time. Eventually, I had to write to Krister and ask him to attend the proceedings. He answered with the letter above, March 18, 1992. He writes that he does not claim to his share of the estate.

Christer RXXXX

It is evident that Krister R's signature to the maintenance case solicitor and Christer R's signature to the estate inventory are different, two different persons signed the documents. The third signature comes from George Bush Sr the same year, 1992. He was then the President of the USA.

In 1992 thousands of estate inventories were carried out in Sweden. The letter signed by Christer lacks your complete name, your civil registration number, and Christer does not claim anything from his part of the estate, which not even God knew anything about.

C. L. Bush      G. W. Bush

**George Bush Sr**

**George Bush Jr**

We can clearly see that President Bush Sr's handwriting does not reflect that of his son, which in turn does not reflect Christer's handwriting. A letter like that might be approved of here in Sweden, especially if it concerns your paternity issue. It shows how important you were in this world.

More info at **Industry, Deity**, pp 40 - 49.

# 100 % proof

Galactica även Star, Black (Christer [REDACTED], civilingenjör, A, SMC 1978. Enligt reklamen har han "flera års erfarenhet inom showbusiness, bl.a. framträdanden i USA, Canada och i de skandinaviska länderna".

On March 19 2007 I found Krister R. on the Internet: 'Swedish Magicians' 1978. He was a member of '**Swedish Magic Circle**' (Svensk magisk cirkel) This reminds me of Izates II/Jesus who, according to Talmud, was sent to Egypt in his youth by his mother Helenin order to learn magic tricks. Furthermore 'Galactica' and 'Star Black' mean this: Galactica is our spiral galaxy in which the Black Sun can be found, Neutron Star Nemesis. Krister R. exists in secrecy and not even his solicitor has seen him. Looking back, we can see that Krister R. and Tibor E are not identical. Tibor E has nothing to do with magic and he was always in the light, i.e. 'visible'. He did not call himself 'Star Black', as above. We often say that history repeats itself. Star Black can be compared Sun Aten during the reign of Pharaoh Akhenaten and the Black Sun of the SS troops in Nazi Germany.

The solicitor has revealed that Krister is frail. This frailty reminds me of Akhenaten's and Queen Christina's frailty and body structure.

Krister/Christer has spent a lot of time during the 70s with magic performances and visited several countries. Nurse Gun at Långbro mental institution was totally right, Krister/Christer did not know who we were. Krister and Christer Philip are not identical.

5) Yrke *Technolog*

SPÄTT 19 58, 92

Personal file page 1, established in Linköping on January 3 1958. We can clearly see that the given name Tibor is missing here, too. There was a gap here to 1974, when the name Tibor was changed into Krister/Christer. Then someone entered the given name Christer. A work title as also added: technologist. On Swedish Magic Circle's website we can read that he was a civil engineer and worked with magic performances. In 1981 the given name Krister/Christer was changed into Christer Philip.

It is also obvious that little Tibor was doomed before he was born. Appropriate courts of law knew about this, see 1974 minutes above. The family name Bush can be a Jewish name in this context, but the family members did not live like Jews, at least not family members from **Prescott Sheldon Bush, 1895 – 1972. George Herbert Walker Bush and George Walker Bush**. The family had (and still have) good relations with the Vatican. The family name Scherff is also a Jewish name, but the family did not follow Jewish traditions. They had no problems with the culture and activities in Nazi Germany.

We know that Immanuel was a Jew, Jesus/Izates II was not. John Mark is said to have been Jewish, but he lived beside the Jews and their culture. Last year, on Christmas Eve, during the evening mass at St. Peter's Basilica in Rome, the Pope several times mentioned that God is poor and if He is poor, His son is, too. He highlighted poverty as being important in this context. My family is poor, we have enough to manage, a small area of land beneath our feet. If you are rich, people say you can go forward aided by your money. But if you are poor and go forward people say you do it by using your knowledge.

You know about this, dad. You advanced using your knowledge, not money. The small amount of money in your possession was confiscated by enforcement officers and given to Christer R/the DSS as maintenance. At the same time, Christer travelled the world in his job.

Dad, you were the last person in the family who talked to little Tibor on the phone. He promised you, that as soon as he was allowed to leave the hospital, he would get in touch. Now, listen, dad!

Swedish media informed us with these words: 'Dead body in a grave – suspicious murder. The body of an unknown human being has been found in an old grave at Karolinska begravningsplatsen in Solna. Two workers who were about to open an old grave reacted badly when a human arm and hand appeared in the depth. The discovery was made shortly before 10 o'clock on Wednesday, August 7, 2013. He left the hospital in 2013 and got in touch using his arm via the supervisor of the cemetery (see also *Prince of Ponte Corvo*, or... pp 50 – 52).

It is true that a woman was buried there in 1969, in a coffin. According to the police a woman was buried there in a black plastic sack. Who is she? Can it be Maria? She called me in 1991, after you had passed away. She had time to say 'I'm...', then the call was interrupted. I recognised her voice, she wanted to say something important. She never called me again. From Ekerö to the cemetery in Solna, with the King's consent. Maria had married again and later on left a widow.

I can see there was another woman besides Maria. She had a similar role and she, too, lived at Ekerö. This is how your paternity issue finished. An issue you were tricked into signing in Linköping on September 18, 1958.

You know that Kristian Jensen also disappeared when little Tibor was killed at the hospital and Maria was silenced. Kristian told you that he took his own car to work every day. I believe that on the day after the murder of little Tibor, a car accident was arranged close to Ekerö. He was killed. Then his name disappeared.

World-famous picture from Egypt  
Amun, Tutankhamun, Mut

Tutankhamun

World-famous picture from Egypt  
Amun, Ramesses II, Mut

Jewess Maria E, Tibor E and Tibor Kemény

A reincarnation of, among others, Jewess Maria,  
Immanuel, Carpenter Joseph.  
The Jewish boy born on Christmas Eve exactly at  
midnight at Linköping Hospital.  
Note that Tibor E was a reincarnation of, among others,  
Tutankhamun.

The Jewish boy Tibor E,  
murdered in 1971,  
The last photo of him

Maria E Christer Philip Tibor Kemény  
(George Bush Jr.)  
Ramesses II

Above is a world-famous picture/sculpture from Egypt: Amun, Tutankhamun and Mut. t. There is also a similar depiction of Amun, Ramesses II and Mut. An important message from the Egypt of the Pharaohs. Tutankhamun from the 18<sup>th</sup> dynasty with Amun and Mut. Then we have Ramesses II from the 19<sup>th</sup> dynasty, who organized the group in his own way, he put himself between Amun and Mut. In other words: He threw Tutankhamun away and placed himself between Amun and Mut, an arrangement which would tell the world that he was Amun's and Mut's son.

We often say that history repeats itself.

I have a photo of you, little Tibor, and Maria from 1958. Finally, we have Christer Philip R, who claims to be identical with little Tibor and who is yours and Maria's son. This is of course cheating and fraud.

Maria and her only son, the Jewish boy Tibor E.

George Bush Jr beside Maria at the  
Vatican. Germanic origin.

From a parish registration office 1991.

Dad, after your decease in 1991, I received the following confirmation from a parish registration office. Christer Philip R is yours and Maria's son. A very wealthy man among the poor. This was supposed to confirm a non-existent fatherhood and not wealth from the other side of the world.

I believe that Christer Philip would be regarded as the Prodigal Son and return to his father, your dad. It is a good comparison between pictures A and B above, where Pharaoh Ramesses II discarded Tutankhamun and placed him between Amun and Mut. Tibor E was a reincarnation of, among others, David, Tutankhamun and Immanuel, Christer Philip a reincarnation of Ramesses II and John Mark. Exactly the same thing happened in this country. We can clearly see that Christer Philip R now replaces the Jewish boy Tibor E, assisted by the authorities, here in Sweden, see pictures C and D. It is perfectly clear that all documents are frauds, lies. One example is this 1991 certificate from the parish records. No Christer Philip R was born in Linköping, Sweden, in 1958. If you are very wealthy, you can come to the Kingdom of Sweden and buy a fatherhood using forgery. Even very expensive, bloody, forged documents concerning your fatherhood were bought. You knew nothing about this, development #3 regarding Christer Philip R.

When it comes to Krister/Christer R, we cannot blame him for anything. He did not know about us and your paternity issue during our phone conversation in 1978. This coincides with the magicians' website, see above. He told the truth, he did not lie. It is obvious that everything concerning your paternity issue during the 70s used Krister's name, such as maintenance, blood examinations and that all crimes that were committed also used his name. Terrible. He was removed from our family, they brought him here and gave him a foreign name. This means he is no more part of our family. It is his problem and he will certainly act accordingly. Krister/Christer left Church of Sweden on February 16, 1981. We can only add that Maria knew nothing about your cousins in Hungary. She was silenced and murdered.

You did not know Christer Philip R, but I cannot criticize him. After the estate inventory proceedings, I received a letter dated March 18, 1992, signed by Christer R. The letter does not contain your name and civil registration number and we cannot see whose estate inventory it is. Christer R's signature, i.e his handwriting, looks like that of George Bush Sr. Christer Philip R certainly knows about the paternity issue. He also has forged, invalid documents. Neither is there any evidence confirming that he is little Tibor. All this proves again, that you were the world's and planet's most important Human Being. This has nothing to do with the royal family. It is not interesting in this context.

Dad, if we look back in time, for instance to ancient Egypt and its history, we see ourselves with your secret name 'Amun.' The Egyptians still remember you and you have fine and human memories of them. All pharaohs wished to be your children, all except for Akhenaten and his family. But here, in the Kingdom of Sweden you were placed in darkness, you are hidden away. But the King, Prince of Darkness, is still shining, to the happy people. You were run over by the authorities, a number of grave, bloody crimes were committed around you. No human rights existed, you were not allowed to defend yourself, you were placed outside in the dark. 1979 was our best year, but after your death, madness returned.

2022. Things happened in Church of Sweden. The Archbishop retired and the Diocese of Linköping received a new bishop. At the same time, the former bishop became the new Archbishop of Church of Sweden. In early July 2022, I posted an application with attachments and documents to the Office of the Chancellor of Justice, regarding damages. I knew this was a meaningless application, but I also knew that the Chancellor presents a motivation. I needed that for today's situation.

### Ditt skadeståndsanspråk mot staten

Du har i ett brev till Justitiekanslern begärt skadestånd av staten.

Inom ramen för statens frivilliga skadereglering kan Justitiekanslern besluta om skadestånd till enskilda.

En förutsättning för att få skadestånd är att staten är skadeståndsskyldig enligt någon författningsbestämmelse eller enligt domstolspraxis. Det som du har skrivit ger inte stöd för att det har förekommit något hos någon myndighet eller domstol som kan innebära att staten är skadeståndsskyldig. Något skadestånd kommer därför inte att betalas ut.

Jag har blivit ombedd att informera dig om detta.

Med vänlig hälsning

The answer from the Office of the Chancellor of Justice stating there is no formal grounds to consider this claim for damage. The claim is therefore nullified.

The emblem of the Office of the  
Chancellor of Justice

This Office was founded in 1713 and received its present name in 1719. Until 1766 it was called 'Kungens Ombudsman', the 'King's Representative'.

The agency has a very strange emblem. Dad, this emblem is worth an analysis. I do not know when it was created, but each emblem has its own story.

At the centre we can see the small coat of arms 'Tre Kronor', 'Three Crowns'. We can find its origins in ancient Palestine, Judaea, Jerusalem, where Three Wise Men appeared at Immanuel's birth.

When I opened the mail attachment, I immediately saw the whole mail, as above. The first thing I noticed was the emblem, which has a historical background. If we study the letter carefully, we notice a third person abiding his time as your son, dad. That is why the courts of law and the authorities have acted correctly in your case. But, in the real world, everything is false. It may be called 'forced fatherhood' and abuse of power. It seems as if the letter was written by someone who is not employed at the Chancellor's office. (The King). Now, dad, let's go on.

The emblem depicts one stork on each side of the National Coat of Arms. One of them holds a pair of scales, a symbol of courts of law and the judicial system. The other one holds the Orb, a symbol of, among other things, power. Generally, storks are symbols of childbirth. The stork, who holds on to the pair of scales, may be a symbol of the birth of little Tibor in Linköping on Christmas Eve 1958. The other stork, the symbol of power, may also be a symbol of Christer Philip R, who, by using power and forged documents, was brought into your paternity issue. This paternity issue is the largest and most important issue in the 1,000-year history of the Kingdom of Sweden. It is about childbirth and court proceedings which is why the emblem of the Chancellor of Justice fits in well with your paternity issue, a reflection of Carpenter Joseph's fatherhood in ancient Palestine.

Irrespective of when it was written or who created it, this is the most remarkable emblem in the Swedish judicial system.

Church of Sweden  
coat of arms

Two storks may signify two  
children and two mothers.

Church of Sweden  
coat of arms

**Archbishop's coat of arms**  
The archbishop is a former  
bishop of the Diocese of  
Linköping.  
A Lamb and a Lion

**The Diocese of Linköping**  
Keys are symbols of knowledge and silver is a symbol of,  
among other things, the woman, a female symbol. One  
example is Christina's silver throne. Here we have two  
mothers, each giving birth to one son. Their roads cross each  
other, blessed by the Church.

**Bishop's coat of  
arms, the diocese of  
Linköping.**

The Lion Tibor E was born in Linköping Hospital on Christmas Eve, exactly at midnight. He is called the 'Lion of Linköping'. Linköping's own coat of arms is a lion. Church of Sweden, the royal court and the government almost at once got the message of his birth. Those concerned were involved.

Tibor E is a reincarnation of, among others, David and Immanuel. He was a lion and in ancient Palestine, Judaea, he was called The Lion of Judaea. He fits in well with the bishop's coat of arms.

Christer Philip R is a reincarnation of, among others, **John Mark**. His family is said to be Jewish, but they did not live among the Jews. They were the richest family of the area. Among other nicknames, he was called 'Mammon's God' and 'Jesus Beelzebub'. His animal symbol was a lion. His remains and relics were removed from Alexandria to Venice and can be found in St Mark's Basilica. He also fits in well.

Well dad, you can see that nothing has changed. The letter from the Chancellor of Justice confirms that the State, headed by the Monarchy, still wants to black out little Tibor's life. You knew Krister/Christer R who are family, but the third one, Christer Philip R, you knew nothing about. Dad, he, who is standing over there, is your new son. A super-wealthy family. In 1981 his given name Krister was changed into Christer Philip. But the person, too, was changed. Number two went away, number three entered the story. He is now said to be identical with little Tibor.

According to simple anthropological analogies of the skull construction of Tibor E and Christer Philip R, the we can conclude that the skulls are different. It does not matter if you are a child or an adult, the basic shape of the skull does not change. Christer Philip cannot be connected to little Tibor. In Christer Philip's world the lie is what is real and reality is a lie. This is, unfortunately, also happening in Sweden. The latest confirmation comes from the Chancellor of Justice. We cannot change the letter, the contents remain intact.

Christer Philip must try to find you beyond the Earth. Being an animal, he will never find you.

Jewish boy Tibor E, born in 1958 and Christer Philip R, born in 1946.  
The Gospels tell us, that what one person sows, the next one harvests. Dad, your paternity issue is about this.

Jewish boy Tibor E, born in 1958

Christer Philip R, born in 1946

The Gospels tell us, that what one person sows, the next one harvests. Dad, your paternity issue is about this.

Each bishop explains his personal coat of arms, but the explanation is gathered from the Gospels. One image of Jesus does not exist, the individual who the clergy say was born in Bethlehem, crucified in Jerusalem, arisen from the dead and ascended to Heaven. The new archbishop is officially managing Church of Sweden, but where to? The flock of sheep will soon find out.

Well, dad, today, you will be 100 years old. It is now 2023, but nothing has changed since when you left us.

Bur our Earth has changed a lot since you left this world. There are individuals who are researching and looking for the truth, the real world in, for example, the US, Canada, Great Britain, Egypt, France, Italy, Germany, Switzerland, China, Russia, South America, etc. It is all about UFO, extra-terrestrial beings, pyramids, buildings, the history of the world. This takes place in various projects which are broadcast by different tv channels across the world. One of them is **Mysteries of the Deep** by **Jeremy Wade**.

#### The round Ark of SUMER

Two years ago I watched a tv-program, **Mysteries of the Deep** by **Jeremy Wade**. It was about the ARK which was built in Sumer before the global flood. When I saw the round Ark on the water surface, my reaction was immediate. It seemed very familiar. I recognized the Ark which was built in Shuruppak. It was a fantastic idea: a re-creation of the round Ark, which, I believe, was built by Lamech and his son Utnapishtim/Enoch. Dad, it was you.

A random discovery at a bazaar in the Middle East in 1948. An **RAF pilot** went to a bazaar in Iraq and found a clay tablet with strange writings. He bought it, brought it home, and forgot about it. Many years later his son presented it at the **British Museum** to find out if it was valuable. The curator immediately saw that that the writing was ancient cuneiform based on mathematics, the world's oldest written language. The text was about numbers, goods, and services. Later on, the language was used for telling stories.

Dr Alessandro Ghidoni is a specialist on ancient ship construction methods. He and other scientists wanted to follow the methods described on the clay tablet and build a copy of the Ark. The instructions are clear. The building material is reeds and has buoyancy, it is easy to handle, you can build whatever you want.

The clay table mentions only two additional materials: wood for the beams and bitumen which makes the ship watertight. Bitumen is a thick oil which comes out of the ground, it was used for various purposes. They used it for everything: ship construction, roads, glue. Ghidoni hand his team managed to build a round ship. It is a big step forward when it comes to find evidence which confirms the Ark.

The clay tablet tells us that the Ark was built before the global flood, the Flood in Lamech's days. The round Ark is special and looks very modern. It is typical for you, Dad. Thanks to Ghidoni and his team we can today see the round Ark from SUMER, what it looked like around 7,000 years ago.

Dad, can you imagine that in the early days of this century I built a model of the Sea House. It is also round. I obtained a patent in 2004.

My round ark reminds me of your round ark which was built around 7,000 years ago in the city of Shuruppak before the Flood. The neutron star was then close to us, as it is now. We experience the same natural catastrophes. The climate experts have now claimed that the natural catastrophes are here because of the emission of carbon dioxide, which constitutes only 0.037 % of the total atmosphere. They do not discuss reality, they discuss fairy tales. And Dad, fairy tales are OK even in Sweden.

**Dad, this is your new engine with a new electric motor with a new electric circuit for electric cars (1979) 1990, Stockholm, patent in the US 1994. More info at 'Industry, New Electric Circuit for a New Electric Motor'.**

**One more engine: Expansion Turbine Motor, prototype – 1982. Patent in Sweden 1984.**

Extensive number of revolutions, small loss of fuel, soundless, top power. Can be managed using any fuel, such as petrol, ethyl alcohol, methanol, or liquid gas. But the final goal is to make it run on distilled water – 1984.

Climate change. We have discussed it endlessly during the 70s, 80s, and 90s. Your plan was to improve the urban environment using your new engines. Simultaneously we heard of and read about the NASA discovery of a new, large celestial body heading for us. We have also discussed this old (but also new) celestial body Nemesis which might turn dangerous in the future. Dad, I have followed this body from the beginning. It is here now and causes the natural catastrophes on this planet. We do not want to talk about it, we choose to talk about CO<sub>2</sub> emission. People around the world believe it is the cause of global warming. Sweden is swimming in CO<sub>2</sub> fever. My plan was that my Sea House/Ark would create safety and protect humanity against natural catastrophes. I produced a Survival Package, but it was shattered. Only the Brits supported me with honours and various distinguished prizes regarding the Sea House/Ark between 2016 and 2019. The Brits are very competent when it comes to natural research and history. You also liked them. Your uncle Simon's eldest son went with his family to London after World War II. He studied to become a lawyer and they spent many years there, Dad, I am still very proud of the prizes and honours they have bestowed on me. Believe me when I say that nothing better has happened to me after your death. Dad, when I read the jury's various motivations of the prizes and honours given to me, I thought about you. Thank you, British people!

More info at **Industry, Now it is time to build the Ark again!, Conquering Space IV, pp 276-278, 280-281, Conquering Space 18, Lucifer pp 6-9.**

**Cosmic Construction & Build Co. are recipients within BUILD Review's 2018 Architectural Innovation Awards, and that you have been awarded our *Sweden's Most Innovative Structural Designer*.**

**Cosmic Construction & Build Co. Award(s): Best Survival Architecture Firm 2018 - Sweden & Excellence Award for Sustainability Initiatives – Sweden**

**Cosmic Construction & Build Co.  
Best Architecture & Construction Service 2019 - Sweden**

**My Good Father**, I have collected all the fine prizes I received from Great Britain. In Sweden we do not talk about them, they are still hidden in darkness. The State claimed I had done nothing with my business when I submitted my 2018 VAT accounting to the Swedish Tax Agency. The Agency ignored all these fine prizes which are very prestigious. One example is marketing, but the Agency deregistered my business with no legal decision. As a matter of fact, the Tax Agency was not the instigator.(The King)

Dad, you know we have been working together for many years. I knew your friends. There were many of them, both Swedes and Hungarians. Besides Henri there is one who is very special, the man from Småland, Ivar Gustafsson. He was, in fact, a phenomenon. He had a business and sold second hand machinery. You remember that when we started to build the workshop at the beginning of the 80s, we needed equipment, for example a large turning lathe. It was not easy to get hold of a second hand (and cheap) lathe. When I met you told me that it seemed as if there was a lathe in Storebro. The machine was new and was used as a marketing device for his customers.

Ivar Gustafsson, Storebro

By Emöke Kemény, 1983

Do you remember when I told you that there was no secondhand machinery here in Stockholm? You answered: 'No you can only find one in Storebro.'

You had, on the phone, answered an advertisement and then, for the first time, you had got in touch with him. You said the phone conversation lasted for at least one hour. He was a versatile man with extensive knowledge. I understand the reason for your long conversation. We visited him twice in Storebro and the social intercourse was unforgettable. I have often listened to your conversations with other individuals, but these between you and Ivar were fantastic. The level of knowledge was high and the topics pinpointed almost everything: the Universe, climate, history, politics, science, technology, research, development, space, space flights, business, investments. Dad, it was very difficult to understand when you started your conversations. It was incredible. We noticed that he was talking about things he had never told anyone outside his family. Simultaneously he created a very good and reliable friendship. On our way home you said: 'Ivar is a true man, he is unique.' After that you had, from time to time, long conversations on the phone. More about him at **Science, Autobiography**, pp 6 – 8.

Dad, I know that your very best friend in this world was Henri. He often said to me: 'Tibor, your father is my brother.' I asked Henri how it was possible for him to understand you so deeply. 'For me it's enough to look at your father and when he says one word I know what he wants to say and I help him.' Henri was part of you, you were at the same level of frequency, He was one year younger than you and he called you his brother, you became friends in 1962. You know he has a son born in 1974. He is as tall and thin as was Henri. After your death I met them twice. Henri was terribly sad, they were waiting outside a shop and were probably expecting Karin. I was about to approach them and tell them you had died but Dad, I lacked courage. I think he found out that you were no longer with us via the national registration. The phone conversations suddenly ended. That is why he was so sad.

Each year on New Year's Eve I always remember the afternoon of autumn 1976, when we were together with your neighbour Julius. In the afternoon he was 'normal' and said to us: 'Listen, I have only one dream in this life. Tibor, we will celebrate New Year's Eve 2000 together.' You said 'OK, Julius, let's celebrate together.' When I think about this, tears are in my eyes. You are not here anymore, neither you nor Julius. According to me, you were always healthy. My wish was not impossible.

Now, when we are talking about your good friends, I remember another good friend of yours: Televerket in Farsta. You mentioned at least twenty good friends, among them your bosses, an engineer who, in his spare time was busy with atom construction, atomic physics, a good friend in the workshop, one who played golf A Turkish engineer who knew a lot about history including various names from history. Some of them worked with you in the same office, but there was among them a young Jewish man, a civil engineer from Austria, who you met every day. During lunch breaks you walked to downtown Farsta to do your shopping. He also knew me, i met him a number of times.

In those days, Televerket had a very modern library with thousands of interesting books. I know you two spent time there during your lunch breaks. A remarkable thing happened after your death. I was at downtown Farsta and someone approached me. I turned around and saw him running towards me. The first thing he said was 'Where is your father, how is Tibor, I haven't seen him for ages. Has he abandoned the library?' You know, Dad, that you now and then came to the library even after you had retired to meet your friends. I did not move, I couldn't say anything. He was just looking at me. Eventually I said 'He left us forever last spring.' We started crying and hugged. In tears he said 'Your father, Tibor, was the very best human being on this planet. Now I have made up my mind, I will go back to my office, meet my boss and resign. I will call my mother and father in Vienna and tell them I will return home as fast as possible. – No Tibor, no Sweden.'

I do not know what the two of you were talking about. It seems as if the conversations dealt with great issues. He could not tolerate that you were no longer here, he could not live in Sweden without you. He reminds me of Ivar Gustafsson. After this encounter, I never saw him again.

Dad, one thing is clear. All the friends you left behind will remain your friends forever. We are not against Sweden as a nation, we are against the monarchy. A republic would pave the way for a better Sweden. They do not understand that a paternity issue is family matter. You are in power and not the superrich and powerful individuals. It has nothing to do with religion. Anyway, you know your enemies and opponents. They fight against you now and will do so in the future.

Dad, your 100th anniversary will last throughout year. We are not alone, the Pleiades are with us, as are The Father of the Gods Anu and his group. The Venus group can be trusted, but maybe a question mark when it comes to the Mammon group (extra-terrestrial beings) who, so far, support monarchy. The Swedish monarchists are against us. You know we have been talking a lot about the monarchy, the King and the Masons. This has not changed. It takes some time to understand that a monarchy hurts Sweden in an unamenable way. We will soon get there but at first we will find ourselves in a terrible situation before our politicians wake up to abolish the monarchy and accept the republic. This is much better for the nation. The politicians of the 1950s and 60s wanted to abolish monarchy and introduce republic. They will soon regret they did not abolish monarchy.

Dad, when you were here, we talked a lot about Universe. Today, science and scientists have no idea about its true construction. They do not know the correct natural laws, laws which cover the entire, large Universe where we live, the human body. Perception, on the other hand, is satisfying. They are discussing dark matter and dark energy which also exist in our parallel Universe. There was never a Big Bang. What counts is the ejaculation and when that happens, they cannot calculate influences here on our Earth. Everybody understands that. Observations when it comes to the expansion of Universe (the galaxies in Dern Universe) are correct thanks to the ejaculation. From our closed, small Universe it is impossible to see or study the whole Universe. If you are not a part of the family tree as a firstborn son or daughter, you will never get to know what Universe really is. Neither do we talk about the origin of Man. I will not reveal anything. We all know that Man is the Crown of Creation. There is nothing greater than that.

Dad, Mum also passed away after you, in 2007.

We are now alone here. There are still cousins in Hungary and Germany. Sure, our lives are destroyed, but life goes on. A shattered life cannot be compensated by money, neither can a destroyed economy, can it? No, not in this context. The State knows about this. The letter from the Chancellor of Justice confirms this.

Time flies now, we will soon leave this planet. I was happy when I left Hungary in 1964. I was also happy when we hugged at Stockholm Central Station after eight long, difficult years. I will be happy again when we can hug again....

Dad, you have finished your last life here in the Kingdom of Sweden, ruled by the Masonic Grand Master in Stockholm, Head of State and King Carl Gustaf XVI.

Remember what my paternal grandfather said when he heard that you, in 1956, came to the Monarchy of Sweden: 'It is a catastrophe for us', he said. He was right. A tragedy. The Tragedy of Man.

My good Father, we are now thinking about you. We are your flesh and blood. We will find you, we know where you are. We will always be with you...

My good father, my last words to you are these: **We'll meet again, My Good Father!!!**

Your beloved Son Szabi.

(Szabi is a pet name, Szabolcs József/Josef. Dad, you called me Szabi.)

Extra info on Pharaoh Ramesses II.  
 Nowadays there is much going on around Pharaoh Ramesses and Dynasty 19 in Egypt. For British Caroline Wilkinson, forensic anthropologist at John Moore’s University in Liverpool, this has become a lifelong achievement. She has recreated the original face of Ramesses II. I will refer to her as we go along. It appeared at the right moment. Dad, it’s great, I’m sure you would’ve liked it. You, too, were interested in anthropology.  
 – I watched this tv documentary in mid-March this year.

A simple comparison between George Bush Jr and Ramesses II.  
 Eyes and eyebrows look similar bur Ramesses’s eyes are bigger. The mouths and smiles are also similar, but Bush’s smile and mouth are Almost perfect. The chins are almost identical.

**Prescott Sheldon Bush,**

The relations between ear and nose are also almost identical, but Bush’s ears are a bit more pointed.  
 Cranium: They both have round craniums. The pictures depict Ramesses II when he is around 40 years old.

The opposite side of the portrait is the same. We must remember that Ramesses lived around 3,500 years ago In Egypt. He was the son of Egyptian parents, his body is Egyptian. Bush's background was German-English-American. Ramesses II was an Egyptian pharaoh; Bush was the American president during eight years. Bush is the only American president who appears on a photo together with Virgin Mary. He is deeply religious, his family are Jesuits. He was born into the the Bush family named Reynold Bush.

More info at **Industry, Deity**, pp 38 – 60, and **Son of Global Crimes**, pp 1 – 39. It turns out that Ramesses's family from Dynasty 19 in Egypt can be found in the Bush family in the US. But, this is good enough when it comes to a comparison of their looks. Personality is much better, for example pharaoh/president, politician, propagandist. They were both bad at military strategy. They were both very wealthy: Mammon/Satan, God,

There is one problem. There was a time when Christians crushed most Ramesses II statues because Osiris, the arising was allowed inside the Christian Church. Ramesses II was, among other things, a reincarnation of Osiris. Now there is almost no original Ramesses II statue left, which means we cannot compare the new face with Ramesses II. The only comparison we can make is via the mummy, and that face is incredibly good.

World famous picture from Egypt  
Amun, Tutankhamun, Mut

World famous picture from Egypt  
Amun, Ramesses II, Mut

World famous picture from Egypt: Amun, Tutankhamun, Mut  
Tutankhamun/Tibor E. 1958

World famous picture from Egypt: Amun, Ramesses II, Mut    Ramesses II/Christer Philip R. 1981.

Dad! We often say that history repeats itself and both of them are again parts of your paternity issue. It sounds incredible but it is true. More info above on pp 83, 84 and 88. —

# The Tragedy of Man

/.../ Cosmic Adam/Bringer of Light to God  
**(Mammon) Lord:**  
 You act with greedy hands, but you are a powerful  
 Lord –  
 A tiny piece of land under your foot is enough for me  
 Where the foot of denial gets stuck  
 And your world will be defeated.

Madách Imre, 1823-1864

# Az Ember tragédiája

The binary star system which causes a variety of global catastrophes.

### Nostradamus - Quatrains

Century 2, Quatrain 41

The great star will burn for seven days,  
The cloud will cause **two suns** to appear:  
The big mastiff will howl all night  
When the great pontiff will change country.

Nostradamus hit the bull's eye  
as early as in the 17<sup>th</sup> century

'And I, Enoch, I alone saw the likeness of all things. Nor did any human being see it, as I saw it.' See  
corresponding vision at Science, *The Secret of the Black Hole*, pp 3-6.

# The Fullness of Time

Daniel, 12:4 and 12:13

'.../ But you, Daniel, shut up the words, and seal the book until the time of the end; many shall run to and fro, and knowledge shall increase.'

'But you, go *your way* till the end; for you shall rest, and will arise to your inheritance at the end of the days /.../'

Finally:

5. Jesus said, 'Know what is in front of your face, and what is hidden from you will be disclosed to you. For there is nothing hidden that will not be revealed. And there is nothing buried that will not be raised.' – Jesus, too, wanted secrets to surface to give the world access to knowledge.

10. Jesus said, 'I have cast fire upon the world, and look, I'm guarding it until it blazes.' 16. Jesus said, 'Perhaps people think that I have come to cast peace upon the world. They do not know that I have come to cast conflicts upon the earth: fire, sword, war.'
